Notes:
1. Metals samples collected on November 29, 2010 from Station 1 (Southwest Area [sidewalk bridge level]), Station 2 (Southeast Area [sidewalk bridge level]), and Station 20 (Northeast Area [street level]) have increased volumes; sample collection times for all samples were greater than 24 hours, ranging from approximately 25.8 hours to 31.6 hours, due to site access issues.
2. The metals sample collected on November 29, 2010 from Station 4 (Northwest Area [street level]) has a lower volume than the other metals samples collected on this day on account of motor failure.
