Note:

1. Silica results for Stations 14, 15, 16, and 17 on January 17, 2006 will be reported with the January 18, 2006 results. These samples will represent a combination of ambient air collected on 1/17/06 and 1/18/06. Sample retrieval for the 1/17/06 samples at these locations was not possible on 1/18/06 as strong wind gusts and related worker safety considerations precluded field staff access to scaffolding stations on the day noted.
