Narratives

Disaster Damage:

The Lower Manhattan Development Corporation was created in the aftermath of September 11, 2001 by Governor Pataki and then-Mayor Giuliani to help plan and coordinate the rebuilding and revitalization of Lower Manhattan, defined as everything south of Houston Street. The LMDC is a joint State-City corporation governed by a 16-member Board of Directors, half appointed by the Governor of New York and half by the Mayor of New York. LMDC is charged with ensuring Lower Manhattan recovers from the attacks and emerges even better than it was before. The centerpiece of LMDCs efforts is the creation of a permanent memorial honoring those lost, while affirming the democratic values that came under attack on September 11. The United States Department of Housing and Urban Development appropriated \$2 billion to fund the Lower Manhattan Development Corporations initiatives.

Recovery Needs:

The World Trade Center attacks resulted in a staggering loss of life and extensive physical destruction to Lower Manhattan. Approximately 30 million square feet of commercial space was damaged or eliminated, and seven buildings in the World Trade Center site were completely leveled. Critical transportation infrastructure was disrupted or obliterated, including the PATH station, the 1/9 subway line and sections of Route 9A and Church Street. Vehicular access to the area south of Canal Street was prohibited for seven days. As a result of the tragedy, residential occupancy rates in the immediate region dropped to 60%, over 100,000 jobs were displaced, and small and large businesses struggled to maintain viability.

Activity Description:

BUSINESS RECOVERY GRANT PROGRAM --- This plan details LMDC's proposed expenditure of \$350 million to supplement three business recovery and economic revitalization programs initiated and administered by Empire State Development (ESD), New York State's economic development agency, in cooperation with the New York City Economic Development Corporation (EDC). ESD Action Plan History -- Business Recovery Programs Established by ESD -- Congress appropriated an initial \$700 million to New York State for economic recovery and revitalization efforts through HUD's Community Development Block Grant Program. This fund is managed by ESD in cooperation with EDC in accordance with a Final Action Plan and an Amended Action Plan accepted and approved by HUD. The Final Action Plan describes all of the business recovery and revitalization programs. The Amended Action Plan modifies three programs: (1) the Small Firm Attraction & Retention Grant Program, (2) the WTC Business Recovery Loan Fund, and (3) the Infrastructure Rebuilding Program. Both ESD's Final Action Plan and Amended Action Plan are available on the ESD web site: www.empire.state.ny.us. --Additional Business Recovery Funding from LMDC -- Both ESD's Final Action Plan and Amended Action Plan recognized that more than \$700 million would be needed to fully fund the business recovery and revitalization programs as described. When an initial \$2 billion was appropriated to LMDC, Congress intended that some portion would be directed to the business recovery and revitalization effort administered by ESD. In fact, \$500 million of the initial appropriations (the \$700 million and the

\$2.0 billion) is required to be made available to small businesses, not-for-profit organizations, and individuals to compensate them for economic losses. -- LMDC is publishing this Partial Action Plan to allocate \$350 million of the \$2 billion fund to three business recovery programs administered by ESD as described in ESD's Final Action Plan and Amended Action Plan referred to above.--WTC Business Recovery Grant (BRG) Program -- \$150,000,000,(total program fund \$481,000,000) ---PROGRAM OVERVIEW---The WTC BRG program provides grants to businesses (including not-for-profit organizations) with fewer than 500 employees, located in Manhattan south of 14th Street, to compensate them for economic losses resulting from the disaster. Compensation is calculated based on days of lost gross revenue, with the maximum number of days and amounts determined by business location. ---PROGRAM OBJECTIVE--- The program is intended to provide compensation for economic losses at affected firms, thereby assisting in the retention of 225,000 jobs at assisted businesses and up to an additional 150,000 jobs at businesses indirectly affected by the activities of assisted businesses. Note that businesses assisted by this program will also be eligible for assistance from other ESD programs. Consequently, job impacts across programs are not additive. --- Integration with Preexisting Programs. Benefits from the program will be integrated with the previously offered WTC Disaster Retail Recovery Grant Program. That program offered compensation equal to three days lost business revenue, capped at \$10,000, to retail and personal service firms with fewer than 500 employees located in Manhattan south of Houston Street on September 11, and continuing in business in New York City.---Benefits from the program will also be integrated with the previously offered Lower Manhattan Grant Program administered by the EDC. That program provided grants, capped at \$10,000, to small non-retail businesses located in the restricted area of Lower Manhattan, and grants to other non-retail businesses located south of Houston Street tied to application and approval of SBA loans.---eligibility Criteria and Maximum Award Levels. Applicants for assistance through the WTC BRG program must show a business lease, deed or permit that was in effect on September 11th. - -RESULTS--The Business Recovery Grant Program (BRG) ended December 31, 2002. The program provided \$219 million in grants to 6,858 firms with 52,310 employees.

Location Description:

Manhattan south of 14th Street

Activity Progress Narrative:

This is an inactive program and a final determination of any remaining budgeted but undistributed funds will be determined in the future.

There was a recovery of \$21,750 due to a final settlement and recovery from IIT Corporation which reflects the LMDC portion of the original grant with the remainder going to ESDC.

Activity Description:

WTC JOB CREATION AND RETENTION PROGRAM --- The WTC Job Creation and Retention Program (JCRP) offers grants to assist firms with 200 or more employees that were displaced from their workspace for at least one month after 9/11, as well as other affected firms, and firms willing to create new jobs in the downtown area. JCRP is managed by ESD in cooperation with NYC EDC in accordance with a Final Action Plan and an Amended Action Plan accepted and approved by HUD. Assisted companies are required to maintain jobs in New York City for a

minimum of ten years. Decisions as to whether to provide assistance and how much to offer are evaluated on an individual case basis based upon an assessment of the economic value of the project to New York City, risk, location, and size of workforce. In addition, there is assistance for projects for the adaptive reuse of available space to meet the needs of firms with specialized requirements in industries offering substantial job creation potential to the area south of Canal Street. Empire State Development (ESD) has been drawing on LMDC's \$143 million sub-allocation since August 2003.

TOTAL COST OF PROGRAM. ESDs Action Plans allocate \$175 million to WTC JCRP. This \$143 million was allocated to the program by LMDC through Partial Action Plan 2 (this was subsequently reduced by \$7 million), bringing the total program fund to \$318 million.

Location Description:

South of Canal Street

Activity Progress Narrative:

To date, over \$269 million has been committed to 72 companies that have moved/expanded or remained downtown, representing over 72,000 Lower Manhattan jobs of which over 5,000 are newly created jobs. It should also be noted that 20 companies relocated offices downtown. Over \$106 million of these commitments have been funded by this LMDC grant with the balance coming from a separate HUD grant made to Empire State Development Corporation (ESDC). There remains over \$36 million (not \$36,000 as inadvertently reported last quarter) from the LMDC portion of the grant to be distributed. There have been no commitments made as of yet against the remaining LMDC portion. Since ESDC has not fully disbursed its own portion of this grant, funds remain undisbursed from LMDC and will remain so for the near future. ESDC still has \$1.37 Million Dollars in funds available for new recipients before LMDC funds will be used. Small recoupments continue to be made throughout this quarter and are expected to also be recouped in upcoming quarters. This program remains open and is ongoing.

Activity Description:

SMALL FIRM ATTRACTION AND RETENTION GRANT PROGRAM (SFARG) --- The Small Firm Attraction and Retention Grant Program (SFARG) was an initiative designed to assist businesses and not-for-profit organizations with 200 or fewer employees located south of Canal Street in Lower Manhattan. SFARG provided cash grants to eligible entities that committed to leasing space and employing people south of Canal Street for a minimum of five years. The program provided assistance ranging from \$3,500 to \$5,000 per employee. Businesses that were located south of Canal Street as of September 11, 2001 and committed to stay downtown at least 5 years could also qualify for the program.

The final application deadline was June 2005. Applications for initial SFARG disbursements are no longer being accepted. Partial Action Plan 2 as amended on September 27, 2006 reduced the funding for SFARG by \$21 million from \$50 million to \$29 million.

Location Description:

The area on the south side of the line beginning at the intersection of the Hudson River with the Holland Tunnel, and running thence east to Canal Street, then running along the centerline of Canal Street, to the intersection with Rutgers Street, and thence running along the Centerline of Rutgers Street to the East River.

Activity Progress Narrative:

No payments or recoveries were made this period. A final determination of this program is not expected until the end of 2015.

New York City Department of Parks and Recreation	\$0.00	\$767,406.31
Match Contributed	\$0.00	\$0.00

Activity Description:

PROGRAM BACKGROUND: Columbus Park is a heavily used neighborhood park bounded by Baxter, Bayard, Mulberry, and Worth Streets. Bayard and Mulberry Streets are characterized by low-rise residential buildings with small-scale ground floor retail. Baxter and Worth Streets are dominated by Chatham Towers, a high-rise middle-income apartment complex, and the large institutional buildings of the City's Civic Center. The park is the main place for outdoor recreation for adults and children in Chinatown. A wide variety of community-based organizations program recreational activity in the park, including volleyball, basketball, Asian table games, and tai chi. The pavilion was fenced off five years ago when decay of the building infrastructure created safety hazards.

PROGRAM DESCRIPTION: LMDC allocated \$998,571 for the Renovation of the Pavilion in Columbus Park. The project includes rehabilitation to address the decay of the buildings infrastructure. The project expands on recent renovation efforts by the Parks Department and proposes the creation of new community space in the lower level of the pavilion and the refurbishment of the upper loggia for recreational programming. In addition, the project will eliminate barriers and promote accessibility for people with disabilities.

PROPOSED BENEFICIARIES: The renovation of the pavilion at Columbus Park has been deemed essential to maintain the overall quality of the park: (1) Rehabilitation of the pavilion will open a structure that has been closed for five years, free up scarce outdoor space for other activities, and rehabilitate a community eyesore. (2) There is a need for public space in Lower Manhattan to replace public space lost in the destruction of the World Trade Center complex. (3) Community District 3, where the park is located, has a population of 164,407 as of the 2000 Census. There is a scarcity of recreational space with only 0.73 acres of parkland per 1,000 people compared with the average of 1.7 acres per 1,000 people for Manhattan overall and the minimum ratio of 1.5 acres per 1,000 people prescribed by the Environmental Quality Review. (4) The only other Major Parks (defined by City Planning to be parks of 9 acres or more) on the east side of Lower Manhattan are City Hall Park and the East River Park. City Hall Park does not have community recreation space. The East River Park is difficult to access for residents in the Chinatown area.

SELECTION OF BENEFICIARIES: The renovation of Columbus Park will play a key role in the revitalization of Chinatown. (1)The park serves as an important entrance point to Chinatown linking the civic center with the retail and residential areas.(2)The park is located across the street from the main community building, which houses the only museum in Chinatown as well as one of the largest senior centers. (3)The park is located one block away from Mott Street, the main restaurant district in Chinatown. (4)The Parks Department estimates that the rehabilitation of the pavilion, the restoration of existing facilities for public use, and the establishment of new sheltered and indoor space will allow for an increase in park usage of 36,000 users, better serving the growing population of this neighborhood. Columbus Park predominantly serves low and moderate income households. The area immediately surrounding Columbus Park includes the zip codes 10002 and 10038. Per the U.S. Census Bureau, Census 2000, over 60% of the households in this area earn less than 80% of New York median income.

ALLOCATIONS IN PAP: In March 2003, PAP 3 allocated a total of \$428,571 for this project. It was then amended in September 2005 for an additional \$570,000 with a total of up to \$998,571.

Location Description:

Columbus Park is bounded by Baxter, Bayard, Mulberry, and Worth Streets.

Activity Progress Narrative:

This project has been completed. No additional payments have been made. Formal requests to the New York City Department of Parks and Recreation have been made for submission of any and all final reimbursement requests. We expect this matter to be resolved by calendar year end.

Activity Description:

PROGRAM DESCRIPTION: In April 2010, the LMDC Board authorized an amendment to Partial Action Plan 4 to add \$95,000. The authorization brought the total amount of funding allocated to the New York Stock Exchange Security and Streetscape program to \$25,255,000, of which \$160,000 is for costs associated with environmental review and \$25,095,000 is to plan and oversee the construction of the Program. The amendment to Partial Action Plan 4 was approved by HUD on August 5, 2010. The Program includes the installation of security barriers and guard facilities; the repaving of the Broadway intersections at Wall Street and Exchange Place; the installation of Eurocobble along Broad Street between Wall Street and Exchange Place; and the placement of NoGo bollards. Phase One of the project also includes the installation of a set of turntables at the intersection of Broad and Beaver Streets and the addition of new and more attractive street furniture to facilitate pedestrian circulation and enjoyment of the Financial District. Phase Two of the project continues with the critical improvements begun in Phase One and focuses on the next step of improving the public realm. The improvements support and enhance the Financial District as a competitive location for businesses and residents. Phase Two improvement include a second set of turntables at the intersection of Wall and William Streets to replace the existing clamshell devices, expanded use of EuroCobble along Wall Street between New and Willam Streets and along Broad between Wall and Beaver Streets, the introduction of interpretive historical elements along Wall and Broad Streets, plaques and markers explaining the relevance of the historical interpretive elements, and a raised pedestrian zone at the corner of Exchange Place and Broad Street. Phase I and Phase II were substantially completed in the fourth quarter of 2009. The City of New York is planning the installation of two interpretative bollards in the area as part of this project.

PROGRAM OBJECTIVE: The objective of the New York Stock Exchange Area Security and Streetscape Program is to

provide the utmost security for the Stock Exchange area, and to ensure that the environment is aesthetically conducive for the people that work and live in the Financial District. Securing the area has long been a priority for New York City and New York State. The proposed improvements will serve to make the Financial District a competitive location for businesses and an attractive place for residents.

PROPOSED BENEFICIARIES: This project would benefit residents, workers, businesses, not-for profits, and visitors to Lower Manhattan. This project would also serve to benefit the many visitors to the area by providing for aesthetic improvements to the public realm. The number of persons benefiting annually is based on a 2006 economic analysis report produced by The Louis Berger Group, which determined that there were approximately 39,451 residents in the New York Stock Exchange Area, 104,850 workers in the Area, and 2 million visitors annually to the Area.

SELECTION OF BENEFICIARIES: The Stock Exchange Area, much like the rest of Lower Manhattan is a neighborhood in flux, these improvements to the security and aesthetics of the streets will allow for a healthier growth and greater quality of life for both residents and employees of the areas businesses.

Location Description:

PROJECT AREA-- The project area for the New York Stock Exchange project is generally bounded by Broadway to the west, Pine Street to the north, William Street to the east, and Beaver Street to the south.

Activity Progress Narrative:

This project was substantially completed in 2009 and was accepted for maintenance by the New York City Department of Transportation. All objectives were met; a total of \$24,891,703 of CBDG funds were paid towards this project. The terms of the subrecipient agreement with the City of New York were complied with and the project has been completed. No further reporting will be provided on this activity.

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$49,981,689 for the Neighborhood Parks And Open Spaces program in Lower Manhattan. The first phase of the Open Spaces program began in 2003 and includes improvements at Wall Street Triangle, Coenties Slip, Old Slip, Washington Market Park, Tribeca Park, Battery Park Bosque, Drumgoole Plaza, Brooklyn Bridge Plaza, Columbus Park, Sara D. Roosevelt Park, Bowling Green, Al Smith Playground, and the East River Park ball fields. New Parks and Significant Enhancements - Wall Street Triangle has been significantly greened with planting beds, flowering trees, and an expanded sidewalk. The Coenties Slip project created a permanent public space from an unused roadbed. The Battery Bosque is a newly designed portion of an existing park that now includes an ornamental garden, evening lighting, and a fountain. The Bosque complements other improvements in Battery Park such as the renovation of historic Castle Clinton. The Brooklyn Bridge Plaza and Drumgoole Plaza projects removed parking spaces and replaced traffic barriers to expand and improve the public space. Major Rehabilitations - The Central Lawn of Washington Market Park, a major destination in a heavily residential neighborhood, was reconstructed with new turf and an irrigation system. Bowling Green, America's first park was completely refurbished. Portions of Columbus Park have been reconstructed and new amenities in this heavily used Chinatown park include benches, game and picnic tables, drinking fountains, and lighting. The East River Park project reconstructed ball fields. --The second phase of parks capital improvements began in 2006 and include: Washington Market Park Comfort Station, Collect Pond Park, Sara D. Roosevelt Phase 2, Allen and Pike Street Malls, James Madison Park, Battery Park, and Canal Varick Laight Park. PROJECT SUPPORT AND OUTREACH: Community Board 1 contributed insight into residents' needs for the area at meetings and through written correspondence. Input was solicited and received from organizations such as the Alliance for Downtown New York, the Real Estate Board of New York, and the Association for a Better New York, the Partnership for New York City, Wall Street Rising, and the American Institute of Architects. Major area firms and property owners were also consulted to determine specific needs and ways to facilitate and sustain economic growth. The City of New York Mayor's Office compiled input from a number of sources and a range of constituencies, determining areas of

overlap and greatest need. **PROPOSED BENEFICIARIES:** The creation of open spaces and neighborhood parks will provide public facilities that add to the quality of life for all communities in lower Manhattan and draw residents and visitors to the area, which will also contribute to the rehabilitation of Lower Manhattan. These projects will provide immediate relief to Lower Manhattan residents, businesses, workers, students, and visitors by improving accessibility in and around Lower Manhattan and enhancing the quality-of-life in Lower Manhattan, making this a more attractive place to live, work, and visit. Community Board 1 and 3 comprise the proposed Lower Manhattan project area. Community Board 1 has the highest population growth rate of the city's 59 community boards, with increases of 100%, 59%, and 35%, over the last three decades respectively. According to the 2000 Census, the population is 34,420 residents, with over 6,791 families. A dire need for additional parks has repeatedly been identified by Community Board 1 in its annual Statement of Needs, particularly on the district's east side where virtually no park space is available. In addition to its growing residential population, the area hosts hundreds of thousands of tourists annually, making improved public spaces essential to the sustainability of the area. In contrast, further east, Community Board 3 consists of predominantly low- and moderate-income households and has the third lowest median income in Manhattan. Community Board 3 has a long tradition of ethnic, economic, and cultural diversity and with a population of 164,407 according to the 2000 Census is one of the City's most densely populated areas. The need for additional parkland and the rehabilitation of existing parks has been identified as a high priority of the Community Board. Enhanced parks and new green spaces across the residential communities throughout Lower Manhattan will serve as a catalyst for the redevelopment of Lower Manhattan by providing public facilities for local workers, a draw for businesses, and an improvement in the quality of life for downtown's growing residential population. They will also provide a significant destination for visitors by capitalizing on downtown's magnificent waterfront setting, unique architectural character, and important historical context.

Location Description:

Wall Street Triangle- Wall Street, Pearl and Water streets; Coenties Slip- Coenties Slip, Pearl and Water streets; Tribeca Park- Beach Street, 6th Ave, and Ericsson Place; East River Park Ballfields- Montgomery-Houston Street and FDR drive; Drumgoole Plaza- Frankfort and Gold Streets; Brooklyn Bridge Plaza- Avenue of the Finest, Frankfort St, and Park Row. Improvement will be made up to Chatham Square; Sara D. Roosevelt Park- Forsyth, Canal, Chrystie, and E. Houston; Bowling Green- Broadway and Whitehall Street; Al Smith Playground- Catherine, Madison, to Oliver Street; Washington Market Park- Greenwich and Chambers Streets; Old Slip- Old Slip, Water, and FDR; Louise Nevelson Plaza - Maiden Lane, Liberty St, William St. PHASE 2: Lower Manhattan, bounded by West Street to the west, the East River to the east, and generally between the Brooklyn and Manhattan Bridges. The Allen and Pike Street Malls extend from the East River, up along Pike Street to Canal Street, where they become the Allen Street Malls and extend northward to Houston Street.

Activity Progress Narrative:

All work has been completed on Canal Varick Light Park, Sarah D. Roosevelt/Hester Street Playground, Washington Market and Allen Street/Pike Street Mall. Punch list work remains ongoing at Collect Pond Park and James Madison Plaza.

The Battery Carousel is complete and was open to the Public on August 20th 2015. All reimbursement requests related to the Carousel project were submitted and paid.

No reimbursement requests have been received or paid this quarter. We are awaiting additional reimbursement requests from the New York City Department of Parks and Recreation.

Activity Description:

--WEST STREET PEDESTIRAN CONNECTIONS-- This project constructed a temporary pedestrian bridge near the intersection of Vesey and West Streets and provide enhancements to the current bridge and walkway at Liberty Street. This improvement fostered safe pedestrian flows across West Street, as well as handled the expected high volumes of pedestrians that use this crossing daily since PATH service were restored in December of 2003. The former North Bridge, which connected the World Trade Center site to the World Financial Center, was entirely destroyed by the terrorist attacks on September 11, 2001. This bridge was a major connection between the World Trade Center PATH Terminal (which served an estimated 67,000 in-bound PATH riders daily before it was destroyed on September 11, 2001) and the heavily utilized offices at the World Financial Center. During peak hours, 6,000 people per hour utilized the pedestrian bridge prior to September 11th. Since the attacks, the number of pedestrians crossing West Street at the Vesey Street intersection has steadily recovered from levels immediately after the attacks, and it is expected that as the area around the World Trade Center recovers, these numbers will continue to rise. As PATH riders arrive at the World Trade Center and cross West Street to reach the World Financial Center, a replacement for the destroyed bridge was needed in order to safely and efficiently serve the estimated 6,500 pedestrians that would utilize the West Street-Vesey Street intersection hourly. This project benefited businesses, workers, residents, and visitors in Lower Manhattan. In 2010, an amendment to Partial Action Plan 4 expanded the scope of the West Street Pedestrian Connections project to include pedestrian management services in order to mitigate the impact of construction on and around West Street including World Trade Center construction.

--ALLOCATIONS IN PARTIAL ACTION PLAN--The estimated cost included in Partial Action Plan 4 is up to \$ 22,955,811.

Location Description:

Liberty Street at West Street and Vesey Street at West Street in Manhattan.

Activity Progress Narrative:

The Battery Park City Authority has completed its pedestrian managers program along West Street. A new pedestrian tunnel is now open under Route 9A that connects the World Trade Center PATH station with the World Financial Center. No payments were made during the quarter but all invoices were received and are ready to be processed. This program will conclude upon payment of these invoices.

Activity Description:

WTC MEMORIAL AND CULTURAL PROGRAM/130 LIBERTY--LMDC, a subsidiary of the Empire State Development Corporation (a political subdivision and public benefit corporation of the State of New York), undertook, pursuant to the New York State Urban Development Corporation Act (UDC Act) and in cooperation with the HUD and the Port Authority, the World Trade Center Memorial and Cultural Program (the Memorial Program) as part of the implementation of the WTCMR Plan. LMDC will implement the Memorial Program which includes the planning, selection, coordination and construction of a memorial, memorial center, and the planning and possible construction of memorial-related improvements, and

museum and

cultural uses on the WTC Site and adjacent areas to complement the redevelopment of commercial office space, retail space, conference center and hotel facilities, open space areas, and certain infrastructure improvements by the Port Authority, the owner of the WTC Site. The planning process includes other appropriate public and private entities.--LMDC and Port Authority Roles--LMDC will be responsible for overseeing the implementation of the memorial, memorial Center, interpretive museum, and cultural uses that comprise the Memorial Program, while the Port Authority will be responsible for the commercial, retail, conference center and hotel facilities, open space areas, and infrastructure components of the WTCMR Plan to be located at the WTC Site. LMDC and the Port Authority will cooperate in developing a plan for implementation of the components of the WTCMR Plan to be located outside the WTC Site. LMDC is responsible for conducting coordinated environmental reviews of the combined WTCMR Plan.--In carrying out the Memorial Program, LMDC conducted an international competition for the selection of the memorial design. LMDC provided initial funding for the design, development, and construction of the memorial, planned for memorial-related improvements and museum and cultural facilities and uses, and will oversee the overall implementation of the memorial as well as the museum and cultural programming and possibly, elements of the WTCMR Plan, including all required coordination with HUD, the Port Authority, the State of New York, the City of New York and other public and private entities. LMDC will also be involved in the coordination of the Memorial Program with the plans and implementation schedule for the WTCMR Plan.--PROJECT AREA--The Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super-block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) the adjacent two city blocks south of the WTC Site, one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets, and a portion of Liberty Street between those parcels and the WTC Site (collectively, the Southern Site).--Specific parcels potentially to be acquired consist of (a) 130 Liberty Street, on which the Deutsche Bank building is situated (the 130 Liberty Site), (b) 155 Cedar Street, on which the St. Nicholas Church was situated (the Church Site), and (c) 140 Liberty Street, (the Milstein Site). All of the structures situated on these parcels were destroyed or severely damaged on September 11, 2001. The acquisition of the Church Site and the Milstein Site, are the subject of a subsequent partial action plan. -- ACQUISITION AND ASSOCIATED COSTS--The Deutsche Bank building at 130 Liberty Street was severely damaged on September 11, 2001 and remained unoccupied afterward. Consistent with Partial Action Plan 7, LMDC acquired the Building from Deutsche Bank on August 31, 2004, and undertook its deconstruction. -- LMDC acquired the 130 Liberty Site pursuant to a mediated settlement agreement among Deutsche Bank, two of Deutsche Bank's insurers of the building (Prior Insurers), and LMDC. Under the agreement, LMDC initially paid \$90 million to Deutsche Bank for title to the 130 Liberty Site and LMDC was responsible for certain costs associated with the remediation and deconstruction of the Deutsche Bank building, up to \$45 million. LMDC initially projected approximately \$25-\$29 million in additional costs in connection with the remediation and deconstruction of the Deutsche Bank building. These additional costs related to, among other things, the procurement of pollution liability insurance, the retention of an entity to serve as LMDC's representative in the day-to-day management of the remediation and deconstruction process, the undertaking of additional environmental review, testing, and monitoring during the deconstruction process, and legal and other transaction fees and expenses. Other expenditures included consultant fees and costs associated with the required public notices and public outreach for the acquisition of property and

continuation of the environmental review process. Accordingly, LMDC initially expected to pay an aggregate of \$164 million for all costs associated with acquiring title to 130 Liberty Street and the remediation and deconstruction of the Deutsche Bank building, which together would create a parcel ready for redevelopment. ---AMENDMENT TO PROJECTED COSTS ASSOCIATED WITH PROPERTY ACQUISITION ---Following the approval of the Partial Action Plan 7 and consistent with the mediated settlement, LMDC entered into agreements with the Prior Insurers and with Deutsche Bank that realized the transactions and provided for a \$45 million cap on LMDC's cost of deconstruction, demolition, and related cleaning and disposal (subject to certain exceptions). Specifically, a Demolition Cap Agreement provided, among other things, that the Prior Insurers shall pay all incremental costs above the \$45 million cap, to the extent those incremental costs are necessary to comply with the legal requirements applicable to the cleaning and removal of hazardous materials related to September 11, 2001. In addition, after acquiring the building on August 31, 2004, LMDC entered into a contract with Gilbane Building Company to clean and deconstruct the building. LMDC engaged environmental consultants to conduct independent environmental testing and characterization of the Building. The testing and characterization initial results were released on September 14, 2004. On December 13, 2004, LMDC and Gilbane Building Company issued a Draft Phase 1 Deconstruction Plan. The Plan was released publicly and submitted to the appropriate regulatory agencies for comment. This initial draft Deconstruction Plan was prepared in response to the Initial Building Characterization, and with direction from the New York State Department of Labor. Based on comments provided by regulatory agencies, including specific comments delivered on January 31, 2005, a revised deconstruction plan to the regulators. After the revised Deconstruction Plan was approved by the regulators, gross cleaning and deconstruction commenced. The projected increase in project costs reflects anticipated changes to the scope of the cleaning and deconstruction resulting from environmental testing, comments received from regulatory agencies, and revised projected costs provided by the contractor. --Based on the additional information regarding the characterization of material in the building and the related legal requirements, additional cleaning and deconstruction work, resources, and services were needed, including added remediation and mitigation measures, additional construction management, additional legal services, additional environmental consulting services, and enhanced integrity monitoring. --Although the amended allocation is intended to cover costs associated with the additional work and resources, LMDC will seek to recover all such incremental deconstruction costs attributable to the application of legal requirements applicable to the cleaning and removal of hazardous materials. This recovery effort necessitates the assistance and representation of environmental, real estate, and litigation counsel in order to ensure the comprehensive and aggressive pursuit of contractual and legal avenues available to LMDC. The increased allocation will allow work to proceed on the deconstruction while LMDC pursues recovery of the funds. Therefore, LMDC anticipates that these funds will be used only to fund the work during this interim period and that the increased expenditures that are the result of legal requirements will be substantially recovered.--PROJECT OBJECTIVES—The rebuilding of the Project Area as a mixed-use center of commerce, public spaces, and culture, with the memorial at its heart, will advance the goals of the UDC Act, the objectives developed by LMDC and the goals articulated by the Governor of the State of New York and the Mayor of the City of New York to remember and honor the victims of the September 11, 2001 and February 26, 1993 terrorist attacks while revitalizing Lower Manhattan. The acquisition of real property that is blighted and

deteriorated is essential to the realization of the redevelopment of the Project Area.--The memorial will ensure that future generations never forget the thousands of people who died on September 11, 2001 in New York, in Shanksville, Pennsylvania and at the Pentagon in Virginia, as well as those who died in the terrorist bombing of the World Trade Center on February 26, 1993. The memorial will be set in a context that bustles with the activity of Lower Manhattan, yet provides a quiet and respectful setting for remembrance and contemplation. Family members of victims and visitors from around the world will come to the Project Area to learn about the events of September 11, 2001 and February 26, 1993 and to remember those who died and those whose lives were changed forever. --Revitalizing Lower Manhattan--The initial conditions of the Project Area were substandard and unsanitary under the UDC Act and impaired the sound growth and development of Lower Manhattan. In addition,

there is a need for the development of cultural, recreational, community and other civic facilities in Lower Manhattan.--Restoring the Project Area as a functioning part of Lower Manhattan is a priority objective for this project. This project is intended to eliminate the blighting effects resulting from the events of September 11, 2001, and to re-establish the Project Area as a locus of commerce, civic space and amenities, including appropriate commercial and retail uses, as well as supporting facilities, utilities and infrastructure, for the downtown area. While Lower Manhattan is a center of world finance and a major economic engine for the entire region, it has also become the fastest growing residential neighborhood in New York City and a major destination of regional, national and international travelers. For these reasons, revitalization of Lower Manhattan should include cultural and other amenities that help make the area a lively environment all day, every day.--The long-term presence of an essentially empty, excavated space in the heart of New York's financial district would become a blight that makes the area less attractive for businesses, residents and visitors. It is important to the economy of New York City that, as business leases in Lower Manhattan come up for renewal, businesses will have confidence that the Project Area will be redeveloped as quickly as possible to reduce its blighting effect on the immediate area.--BENEFICIARIES--The thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and February 26, 1993 will benefit from the memorial to their loved ones. Others immediately affected by the events, including survivors, area residents and workers, will equally benefit from the project. This project will also benefit businesses, workers, residents, and visitors throughout Lower Manhattan.--SCHEDULE--Activities related to the acquisition and deconstruction of property would occur in 2004 and 2005. The full implementation of the Memorial Program would begin in 2004 and extend through 2015. --FEDERAL AND OTHER RESOURCES-- The total estimated cost for this portion of the World Trade Center Memorial and Cultural Program was \$164 million in the initial Partial Action Plan 7. Amendments to Partial Action Plan 7 provided for an additional \$75,539,780.00, increasing the allocation to \$239,617,180.00. in Partial Action Plan 7. Amendments to Partial Action Plan S-2 provided for an additional \$52,500,000, bringing the total HUD CDBG allocation to this project to \$292,117,180. A settlement agreement with the Prior Insurers resulted in a contribution of \$102,356,152 to the project and a settlement agreement with Deutsche Bank resulted in a contribution of \$3,800,000 to the project. LMDC is seeking further recovery of project costs from the general contractor that performed the deconstruction, Bovis Lend Lease.

Location Description:

The Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super-block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) the adjacent two city blocks south of the WTC Site, one bounded by

Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets, and a portion of Liberty Street between those parcels and the WTC Site (collectively, the Southern Site).-- Specific parcels acquired consist of (a) 130 Liberty Street, on which the Deutsche Bank building is situated (the 130 Liberty Site), (b) 155 Cedar Street, on which the St. Nicholas Church was situated (the Church Site), and (c) 140 Liberty Street. All of the structures situated on these parcels were destroyed or severely damaged on September 11, 2001. The acquisition of the Church Site and the Milstein Site, are the subject of another partial action plan.

Activity Progress Narrative:

There was no spending this quarter as funds in this category had previously been exhausted. During the second quarter of 2015, LMDC settled its litigation/dispute with Bovis Lend Lease, the contractor for the abatement and deconstruction of the former Deutsche Bank building that was on this property. As part of this settlement agreement, Bovis (Lend Lease) agreed to pay LMDC \$40 million in three installments and forgive approximately \$10 million in outstanding project payments that LMDC had not made. In May, the first \$20 million of this settlement was returned to LMDC and accounted for in Grant B-02-DW-36-0002, activity 130L-S2-0171.

During the third quarter of 2015, the Port Authority of New York and New Jersey continued to use the northern portion of the site to conclude their work on the construction of the below grade Vehicular Security Center and elevated Liberty Park which are vital components of the World Trade Center site. The southern-most portion of the site is now being used on a temporary basis as a public plaza.

With the help of the Alliance for Downtown New York (the Alliance), tables, chairs, benches and additional planters have been placed on the site for public use as the Alliance contemplates other programming that would further benefit residents, workers and visitors to the area. The site has been activated on a temporary basis until more permanent plans are implemented.

Match Contributed	\$0.00	\$0.00

Activity Description:

LMDC allocated \$60,004,000 for the planning and development of the World Trade Center Performing Arts Center. This proposed cultural building on the rebuilt WTC Site will provide a variety of important uses as part of the overall redevelopment plan. The Performing Arts Center will help create a world class visitor destination that will contribute to the economic development of the site and the area, while improving the quality of life for those who live and work in Lower Manhattan. Programming will be broad and diverse, and will serve both businesses and residents. Initially The Performing Arts Center was proposed to contain a 1,000 seat theater venue that considered housing the Joyce Theater as well as a 200+ seat second theater. A smaller building is now being planned. Public spaces and activities that will be part of the Performing Arts Center could include educational programs for school groups and community workshops. The Performing Arts Center is also expected to house rehearsal space for both in house rehearsals as well as for the large arts community in New York and specifically in Lower Manhattan.

The work on the Performing Arts Center, which began in 2004, is continuing and includes activities such as planning, determination of subgrade requirements, and coordination with the Port Authority of New York and New Jersey on the WTC site.

In November 2010, the LMDC Board allocated an additional \$100 million in Grant #2 for PAC construction costs and PAC-related strategic planning efforts in the future. Approximately \$1 million would be used to support (i) the creation and administration of a non-profit entity dedicated to the PAC (PAC, Inc.) that would be governed by a Board of Directors and operate with some key staff, and (ii) strategic planning costs related to further study and development of the PAC. The bulk of the allocation, \$99 million, would be used for the future construction costs of the PAC, subject to successful achievement of strategic planning milestones, which must include (i) the creation of the non-profit PAC, Inc., (ii) the constitution of a PAC, Inc. Board of no less than five members, and (iii) funding of at least \$25 million committed by those PAC, Inc. Board members. It is contemplated that the PAC, Inc. Board would later raise additional private funds to supplement the federal funds being committed by LMDC.

Location Description:

PROJECT AREA--The WTC Plan Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

Activity Progress Narrative:

The subrecipient has stated that the contractor completed work last quarter and the subrecipient agreement expired on June 30th 2015. Three reimbursement requests totaling approximately \$520,000 were paid this quarter. No additional reimbursement requests have been received.

Match Contributed	\$0.00	\$119,000,000.00

Activity Description:

--WORLD TRADE CENTER MEMORIAL AND MEMORIAL MUSEUM-- This project is part of the World Trade Center Memorial and Cultural Program, which also includes the Memorial Museum (W-MUS-0171), 130 Liberty Street (130L-0171), Southern Site (SSite-0171) and the Performing Arts Center (W-ART-0171). LMDC is committed to the development of an appropriate memorial and museum to commemorate the events of September 11. This program includes the planning and construction of a Memorial and Memorial Museum, and the planning and possible construction of memorial-related improvements and cultural uses at the Site. LMDC conducted an international competition on a Memorial design, and in January 2004 announced the selection of Reflecting Absence by Michael Arad and Peter Walker, two reflective pools set in the footprints of the WTC and surrounded by an open plaza of trees. LMDC and the National September 11th Memorial and Museum at the World Trade Center (Foundation) are engaged in a broad spectrum of activities contributing to the planning, design, and implementation of the Memorial and Memorial Museum. The funding provided by LMDC and its partners will be used for planning, design and construction of the Memorial and Memorial Museum. In addition, funding also provides for multimedia exhibitions, and three annual productions of Tribute in Light in 2012, 2013, and 2014. In the Tribute in Light production two beams of light rise from a site near the WTC site into the night sky to honor those lost on September 11th and to celebrate the spirit of all the New Yorkers who have worked to rebuild and renew New York City.

ALLOCATIONS IN PARTIAL ACTION PLAN FOR THE MEMORIAL AND MEMORIAL MUSEUM--

LMDC has allocated a total of upto \$323,231,972 for the National September 11th Memorial and Museum at the World Trade Center.

The allocation includes the following: Partial Action Plan 8 (\$64,921,972), Partial Action Plan 11 (\$75,000,000), Partial Action Plan 12 (\$100,000,000), Final Action Plan(\$45,810,000),and Partial Action Plan S-2 (\$37,500,000).

--BENEFICIARIES--The thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and

February 26, 1993 will benefit from the memorial and museum to honor their loved ones. Others immediately affected by the events, including survivors, area residents and workers, will equally benefit from the project. This project will also benefit the thousands of visitors to the memorial and museum, which will allow them to honor those who were killed in the attacks. The memorial and museum will foster greater public awareness of the events of February 26, 1993 and September 11, 2001, and their impact on the victims' families, survivors, area residents, New York City, and beyond.

--SCHEDULE The Memorial opened on September 11, 2011 and the Museum opened on May 15, 2014. The Memorial and Cultural Program began in 2004 and extends into 2015, including the planning, design, and development of the cultural institutions on the site.

--FEDERAL AND OTHER RESOURCES--The Memorial and Memorial Museum are funded with a combination of public investment and private funds donated by individuals and groups to the National September 11th Memorial and Museum at the World Trade Center Foundation, Inc. (NS11MM). The NS11MM uses its own resources to engage in fundraising for both public sector and private sector funds, and individual donations, to accomplish its mission.

--TOTAL ESTIMATED COST--The total estimated LMDC cost for this activity, including funds provided in Partial Action Plans 8, 11, 12, S-2 and the Final Action Plan for ongoing design, construction, program planning, multimedia exhibitions, and Tribute in Light Productions is up to \$323,231,972.

Location Description:

--PROJECT AREA--The WTC Plan Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

Activity Progress Narrative:

During this quarter, two reimbursement requests totaling approximately \$1.3 million were processed and paid with only \$5,511 charged to this activity. The balance of the reimbursements made to the WTC memorial organization was charged to the transportation category (TRANS 1302). Two additional reimbursement requests for approximately \$3.7M were received in this period and are under review. In 2014, the Memorial & Museum welcomed 6.1 million visitors to the 9/11 Memorial and nearly 2 million visited the museum, which opened in May 2014. All indications are that those attendance figures may be surpassed in 2015. Visitors have come from all 50 U.S. states and from around the world to visit the WTC Memorial and Memorial Museum.

Match Contributed	\$0.00	\$0.00

Activity Description:

PROGRAM DESCRIPTION: LMDC originally allocated \$10,420,000 and later reduced the authorization to \$9,420,000 to the East River Waterfront Access Program. The goal of the project is to connect the East River Waterfront to its closest Lower Manhattan neighborhoods of South Street Seaport, Chinatown, the Lower East Side, and East River Park. The program is critical to improving public access to and utilization of the waterfront area. The project would

improve the east-west connection to the Waterfront by enhancing the historic slips of Catherine, Peck, Montgomery and Rutgers that were once an integral part of the working waterfront and today function only as city streets and roadbeds. Once a place to berth ships for repairs and maintenance, the slips have been filled in and leave a wide corridor between City blocks. The East River Waterfront Access project will redesign Catherine Slip, Rutgers Slip, and Montgomery Slips as median open spaces with unifying elements such as seating, paving, and plantings. Peck Slips historic character will be reinforced by a new vibrant passive open space plaza with a similar planting vocabulary and punctuated by a water feature, recalling the days when the East River actually flowed into the slips. The project improves the existing conditions on these slips by providing multiple easy and attractive pedestrian access points from the waterfront to the interior of Lower Manhattan.

PROPOSED BENEFICIARIES: This project will benefit residents, workers, and visitors to Lower Manhattan with its enhanced open space. The neighborhoods directly adjacent to the project are the South Street Seaport, Chinatown and the Lower East Side, all of which would benefit from the project.

SCHEDULE: Activities related to this project began in 2006 and will continue through 2014.

ALLOCATIONS IN PARTIAL ACTION PLAN: In September 2005, \$10,420,000 was allocated in PAP 10 for this activity. In June 2009, the authorization was reduced by \$1M to \$9,420,000.

Location Description:

PROJECT AREA--The project proposes east-west access improvements and enhancements to existing open spaces at Peck Slip in the South Street Seaport area; Catherine Slip and Montgomery Slip in Chinatown and Rutgers Slip in Lower East Side. North-south access improvements are made south of East River Park to the upland portion of Pier 42.

Activity Progress Narrative:

Construction of Rutgers, Montgomery and Catherine Slips is complete. The New York City Department of Parks and Recreation and the contractor continue are working on the bid documents for Peck Slip.

No additional reimbursement requests were received or paid this quarter.

Match Contributed	\$0.00	\$0.00

Activity Description:

LMDC has allocated \$154,580,000 for the East River Waterfront Esplanade and Piers Project, \$139,580,000 in Grant 1 and \$15,000,000 in Grant 2. The project involves the redevelopment of the East River Waterfront Esplanade and Piers, north of Battery Park and south of East River Park, and would revitalize Lower Manhattan communities and the East River Waterfront. The project will solve a number of issues in the area that hinder the realization of the East River Waterfronts full potential. Such issues include under-utilized spaces (parking lots below the FDR and vacant piers, the absence of sidewalks, and the lack of amenities which dramatically decreases potential visitation to the site.) The project will also fill in the missing esplanade in the Lower Manhattan Greenway between Old Slip and Peter Minuet Plaza. Once constructed, the revitalized waterfront would be an approximately two-mile esplanade that includes a mix of open space, cultural and recreational uses, providing a link between the Financial District, Chinatown and the Lower East Side to the waterfront. As a result of this project, the waters edge will be experienced in new ways along the East River. Improvements to the esplanade are meant to harmonize traditional waterfront uses with new commercial, cultural and community programming and invigorate the area with a fresh, innovative design approach. The Plan provides amenities for passive recreation. The existing bike and pedestrian paths will be improved, expanded, and realigned to provide for unencumbered movement without infringing upon other uses along the esplanade. New pavilions are planned underneath the FDR Viaduct and may accommodate a variety of retail, cultural and/or community uses to complement the public open space experience. The Plan calls for improvements to the FDR Viaduct by cladding the elevated roadway to reduce vehicular traffic noise from above and enhance the ambient lighting below. Several piers on the East River will be transformed into recreational spaces, where active water-related uses would be encouraged alongside passive recreational uses.

Location Description:

The project proposes revitalization of the area running along the East River Waterfront from Battery Park to the south, Pier 36 to the north, and South Street/FDR Drive to the east in Lower Manhattan.

Activity Progress Narrative:

Work on the East River Waterfront Esplanade & Piers Project is progressing on schedule.

Rutgers Pavilion

During the third quarter of 2015 the design team completed the design of the Rutgers Pavilion. The team also continued to attend management meetings, work sessions and task team meetings. New York City Economic Development Corporation issued a Request for Proposals for Construction Management Services to construct Package 4 and the Rutgers Pavilion. Hunter Roberts Construction Group was selected as the winning bidder.

Esplanade Package 3/Pier 35

This quarter the contractor completed the repairs and grouting of the bearing plates at the bridge and commenced with removal of old conduits under the FDR Drive from column 24 to 36.

Additional Reimbursement Requests totaling approximately \$433,000 were received this period while approximately \$1.2 million of reimbursement requests were paid this period.

Activity Description:

\$16 million has been allocated for design and construction costs related to improvements of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north. This \$14 million allocation in Grant 1 is for design and construction. There is another allocation of \$2 million in Grant 2 for planning and design. The specific scope will be dependent on the outcome of the planning process funded by the \$2 million allocation. In general terms, the this project will likely include improvements to the area such as landscaping to increase green open space, public access to the waterfront, improved views of the landscape and NYC harbor, water dependent public activities, expansion of the bike path and greenway, and a variety of park recreational activities.

Location Description:

The project proposes revitalization of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north.

Activity Progress Narrative:

New York City Department of Parks and Recreation (NYCDPR) and the design contractor continued working on the project design. NYCDPR also continued working with our environmental consultant AKRF, on the environmental review. According to NYCDPR the design is approximately 85% complete. No funds have been charged to this activity to date as these funds are preserved primarily for construction.

Activity Description:

LOWER MANHATTAN STREET MANAGAEMENT PROGRAM--LMDC has allocated up to \$4,800,000 for a Street Management Program. Lower Manhattan is home to a street system designed to serve the needs of the 17th Century, with narrow roadways and sidewalks and limited cross town access. This system must now serve the nation's third largest business district, a growing residential community, and the thousands of visitors to Lower Manhattan. With so many competing demands, the street system is overtaxed and must be analyzed as to how to best serve essential street users, such as pedestrians, transit, emergency vehicles and deliveries vital to businesses. To address these competing needs, a dynamic and innovative street management program has been identified, which will include traffic modeling, analysis of delivery options, parking and security design, real time data collection system. It will also develop a series of pilot programs to test various scenarios identified through intensive analysis in a previous phase.--PROGRAM OBJECTIVES--Enhancing Lower Manhattan's street management capability has been identified as a priority by members of the Lower Manhattan community. The objective of this funding would be to further analyze, identify, and implement solutions to the various street management and traffic flow issues impacting pedestrians, transit, emergency vehicles and deliveries vital to businesses. LMDC funds would be used for projects that include, but are not limited to the following: (1)Traffic Model and Construction Coordination: Enhance the existing traffic model to incorporate pedestrian movements; (2) Delivery Options, Parking and Security Design: Investigate opportunities to address Lower Manhattan security needs, develop plan for delivery operations, and investigate new curbside management strategies; (3) Real Time Data Collection System: Assess real time data to monitor traffic and address traffic concerns as they develop; and (4) Implementation of Pilot Programs: Develop pilot programs based on the street management framework to measure their effectiveness in addressing a targeted problem --FEDERAL AND OTHER RESOURCES--LMDC proposes to allocate up to \$4,800,000 for a Lower Manhattan Street Management Program.--TOTAL ESTIMATED COST--The total estimated cost for this activity is up to \$4,800,000.

Location Description:

PROJECT AREA--The Street Management Program would target the area south of Canal/Rutgers Streets, from Hudson River to East River.

Activity Progress Narrative:

All engineering services work was completed in the 4thquarter of 2012. The final reimbursement requests have been paid and this activity is now closed. A total of \$5,973,635 of CDBG funds was expended on this project with \$4,773,635 coming from this activity and \$1.2 million charged to activity P-EDC 7700. The terms of the SRA were complied with and have been completed. The result of the Street Management plan has benefited the Lower Manhattan Community by improving curbside management, construction logistics support and bus management plans to improve traffic circulation, and planning studies to provide a safer pedestrian environment. No further reporting will be provided on this activity.

Activity Description:

CHINATOWN PROJECTS--LMDC allocated up to \$7,000,000 to fund the Chinatown Partnership Local Development Corporation (LDC), The City of New York, and others who would spearhead community improvements in Chinatown, engage in a combination of short-term projects and long-term planning. The creation of the Chinatown Partnership LDC a community-based, not-for-profit organization that has brought together major civic organizations, cultural institutions, and businesses in the community marks a significant milestone for the neighborhood. The Chinatown Partnership LDC was formed in 2004 as a result of the Rebuild Chinatown Initiative (RCI) a comprehensive community assessment and planning initiative that was conducted by Asian Americans for Equality (AAFE) to address the needs of Chinatown in the aftermath of September 11, 2001. Additionally, the City of New York expressed its support to LMDC for the creation of a comprehensive sanitation pilot program for Chinatown. A sanitation program would be funded initially through public investment, with the long-term goal of the community adopting and sustaining the initiative. LMDC proposes to allocate funds for the Chinatown Partnership LDC, in partnership with the September 11th Fund, as it has for the Explore Chinatown campaign over the past two years.--

CHINATOWN CLEAN STREETS PROGRAM--The Chinatown Partnership LDC, in conjunction with the New York City Department of Small Business Services (SBS), will implement and oversee a comprehensive, multi-year Clean Streets program. One of the issues consistently identified in post-September 11, 2001, studies and reports on Chinatown has been sanitation. Chinatown, because of its unique neighborhood characteristics including its dense population, many restaurants, and fresh food markets, requires a comprehensive Clean Streets program to address stated community concerns, including build-up of garbage, sidewalk cleanliness, and odor issues.-- The Clean Streets program will serve as a pilot, and will allow the community to see first-hand the benefits of this program. The community will have the option of taking over the program upon completion of public funding. The program will include manual and mechanical sweeping of the sidewalks, curbs and gutters, frequent removal of bagged litter from street corners, pressure cleaning of sidewalks, graffiti removal, and additional maintenance. The initiative will also provide for the necessary public outreach and community relations work to ensure that the community understands the benefits of the pilot program and begins to take ownership of the services over time. The program will not replace any existing services provided by the City's Department of Sanitation, nor will it affect any type of decrease in garbage service in the geographic area that the program will cover. The SBS has developed expertise in overseeing and implementing such programs throughout the City with Business Improvement Districts and LDCs, and will work jointly with the Chinatown Partnership LDC.--The Clean Streets program would receive initial funding through public investment for a number of years, with the objective of the community taking over the program, and possibly becoming an official Business Improvement District (BID), or similar program, under which the community sustains the level of service over time. The LMDC funded portion of the clean streets program ended in June 2011. The ongoing sanitation program in Chinatown will now be funded privately through an official BID which was signed into legislation in September 2011.

CHINATOWN SHORT-TERM PROJECTS AND LONG-TERM PLANNING--In addition to the Clean Streets program, the Chinatown Partnership LDC will spearhead many community enhancement projects and initiatives that emerged through the RCI recommendations, including short-term capital projects and long-term planning for additional projects to meet the community's needs over time. LMDC funding will also be allocated to Chinatown projects including, but not limited to, way finding, lighting improvements, time-of-day street closures, public outreach and marketing, and others, many of which will occur over a two year period beginning in 2006.

PROJECT OBJECTIVES--To date, no single organization in Chinatown has comprehensively tackled these types of short-term improvements and long-term planning. As mentioned above, Chinatown Partnership LDC would spearhead community improvements in Chinatown, engage in a combination of short-term projects and long-term planning. The Chinatown Partnership LDC is composed of a diverse Board of Directors, which represents a wide variety of civic, business, and cultural interests in the neighborhood. The organization received start-up funds from the September 11th Fund, and was recently awarded a Red Cross grant. The Chinatown Partnership LDC is anticipated to assume oversight of the two year Explore Chinatown initiative, launched by the LMDC and the September 11th Fund, beginning next year. --The RCI process, which initially proposed the development of the Chinatown Partnership LDC, was spearheaded by AAFE, with the involvement of a broad-based Steering Committee comprised of Chinatown area stakeholders. Moreover, the community at large was consulted throughout the RCI process through numerous workshops and visioning sessions.

BENEFICIARIES--The proposed activities would benefit the thousands of Chinatown residents, as well as local restaurants, retailers, vendors, other businesses, and workers. This activity will also benefit the visitors to the Chinatown community.--

SCHEDULE-- Activities related to the Chinatown Partnership LDC will begin in 2005 and continue through 2010.—

FEDERAL AND OTHER RESOURCES--LMDC proposes to allocate up to \$7,000,000 for the four-year budget for the Chinatown Partnership LDC, of which \$5,400,000 will be allocated to the Department of Small Business Services to

implement, in conjunction with the LDC, the four-year Clean Streets program; \$1,600,000 will be allocated for short-term community development projects, marketing, and public outreach efforts that were originally be undertaken by the LDC but later assigned to The City Dept. Of Transportation and other organizations. The remainder of the LDC budget, not including the Clean Streets Initiative, will be funded jointly by the September 11th Fund, LDC Board contributions, and other fundraising efforts. TOTAL ESTIMATED COST--The total project cost for the activities outlined in this Partial Action Plan is approximately \$12,000,000. The total cost for LMDC funding for this activity is up to \$7,000,000.

Location Description:

PROJECT AREA--The Chinatown Partnership LDC, in conjunction with the Department of Small Business Services, will implement and oversee a comprehensive, multi-year Clean Streets initiative for the area generally bounded by Grand Street to the north, Allen and Pike Streets to the east, Worth and Madison Streets to the south, and Broadway to the West.

Activity Progress Narrative:

During the quarter, progress was made with regards to review of the final reimbursement request for over \$549,000. Pending further supporting documentation from New York City Department of Transportation, the reimbursement request will be processed for payment. The project has concluded and once the final reimbursement is finalized the activity can be closed.

Activity Description:

The LMBEC will provide funding for a competitive grant program to entice start-up businesses to Lower Manhattan or support the expansion of established companies in Lower Manhattan with office space and funding opportunities. The \$4 million allocation is to provide grants ranging from \$20,000 to \$750,000 over three years, resulting in support for approximately 18 start-up companies and the estimated creation or preservation of 320 jobs.

Location Description:

Lower Manhattan South of Houston Street

Activity Progress Narrative:

Through the third quarter of 2015, the total number of businesses benefitting from the H.E.L.M Program totals 38. NYEDC continues to monitor winners' compliance of NYEDC reporting requirements as stipulated in the Winners Agreement memorandum. Compliance procedures include conducting unannounced site visits and receiving annual LL62-NYEDC (Employment and Benefit Reports). LMDC has reimbursed a total of \$2.1M to date.

Activity Description:

Project description: LMDC allocated \$16 million for the preservation and rehabilitation of 160 or more units through the Chinatown/Lower East Side Acquisition and Preservation Program (Chinatown/LES Program). The new HPD administered program would be created with an objective of facilitating the acquisition and rehabilitation of privately owned properties in Chinatown and the Lower East Side. This program will establish housing that is permanently affordable under rent stabilization. The program focuses on the acquisition of mid-size buildings (15-40 units) that currently have all or a portion of the units under rent stabilization, where average rents are under \$1,000. Eligible borrowers for this program would be non-profit residential property managers and developers, who would agree to keep units under rent stabilization for a term of 30 years. Additionally, upon vacancy, non-stabilized units must be lowered to the average stabilized rent and returned to rent stabilization. The Chinatown/LES Program aims to benefit households up to 80% of AMI. HPD will use the \$16 million to create a loan pool to assist in acquiring and rehabilitating at least 160 units, a maximum of up to \$125,000 per dwelling unit in acquisition funding, including LMDC program funding of up to \$100,000 per dwelling unit and additional [HPD] funding of up to \$25,000 per dwelling unit, is available to fill the gap between private debt supportable by the project and the acquisition cost over the next two to four years. Proposed beneficiaries: In response to community concerns regarding the availability and quality of affordable housing, this preservation and rehabilitation program will increase the availability of affordable housing for current residents. The Chinatown/LES Program will create and preserve affordable housing for 160 or more low-to-moderate-income households throughout Chinatown and the Lower East Side. This program aims to benefit 160 or more household at or below 80% of AMI. Selection process: Income verification will not apply for current tenants of rent-stabilized units. However, all new tenants will be subject to income verification upon re-rental of vacant units. To date, HPD has approved four acquisition projects: 112 Eldridge Street (16 units), 58-60 Hester Street (38 units), 28-30 Henry Street (36 units), and 191 Madison Street (24 units), and 81 Baxter Street (18 units).

Location Description:

The project area for the Chinatown/LES Program will be target the Chinatown and Lower East Side communities, South of Houston Street.

Activity Progress Narrative:

No funds were spent during the quarter and the project was inactive. Through the Chinatown/Lower East Side Acquisition Program, 152 affordable units in lower Manhattan were preserved. LMDC continued working with the New York City Housing, Preservation and Development (NYC HPD) to discuss how best to use the remaining \$800,000 in this contract. LMDC and NYC HPD plan to amend this contract in order to use these grant funds in conjunction with a new Affordable Housing program to continue to preserve affordable housing in the Chinatown and the lower East Side neighborhoods.

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated 12,000,000 to the New York City Housing Preservation Department to identify and administer projects that (1) provide affordable housing for low, moderate and middle income residents through the preservation of Mitchell Lama or other affordable housing complexes, acquisition of new land or properties for affordable housing or the creation of incentives for the private sector to develop affordable housing; (2) are located in Lower Manhattan; (3) spend no more than \$100,000 per dwelling unit preserved or created; and (4) are consistent with the goals and principles outlined in HPDs The New Housing Marketplace: Creating Housing for the Next Generation. SCHEDULE: Projects to be funded by the Affordable Housing Program are expected to be identified by December 31, 2010 and completed by December 31, 2012. PROGRAM OBJECTIVE: The creation of affordable housing is as a key component of a strong and vibrant Lower Manhattan community. As stated in LMDCs Principles and Revised Preliminary Blueprint for the Future of Lower Manhattan expanding the residential population [would] create a strong sense of community throughout Lower Manhattan, and this housing must be for a wide variety of income levels. The Affordable Housing Program would help achieve that outcome. BENEFICIARIES: The Affordable Housing Program will benefit moderate and low income residents of Lower Manhattan. TOTAL ESTIMATED COST: This Final Action Plan allocates \$12,000,000 of federal funds for affordable housing. Other government and/or private resources may supplement these funds.

Location Description:

The project area for the Affordable Housing Program is defined as Manhattan, south of Houston Street.

Activity Progress Narrative:

An open/active Request for Qualifications (RFQ) was issued during the second quarter of 2015 by the New York City Department of Housing Preservation and Development to identify partner organizations to implement a housing program. Responsive bidders can acquire, rehabilitate, and/or manage affordable housing units in Lower Manhattan. This Affordable Housing program was launched and the related subrecipient agreement will be amended in the near future to reflect new projects identified.

The New York City Department of Housing Preservation	\$0.00	\$4,809,315.30
Match Contributed	\$0.00	\$0.00

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$5,000,000 for capital improvements at Knickerbocker Village, a 1,584-unit development built in 1934, which consists primarily of low and moderate income tenants. Located on the Lower East Side, Knickerbocker Village is operated by a Limited Dividend Housing Company (Housing Company) under Article IV of the New York State Private Housing Finance Law (Article IV), and supervised by the New York State Division of Housing and Community Renewal (DHCR). The funds would serve to benefit the primarily low and moderate income residents by providing for necessary capital improvements that would otherwise result in assessments and related rent increases. Such improvements include repair or replacement of the elevator systems and parapet replacement or reconstruction throughout Knickerbocker Village.

PROPOSED BENEFICIARIES: The capital improvements at the development would benefit the tenants of Knickerbocker Village. Based on numbers provided by HPD in January 2008, 59% of total units are low-income households, and 17% of total units are moderate-income households.

SELECTION OF BENEFICIARIES: Knickerbocker Village was identified by the LMDC and the City of New York as a means to preserve affordable housing units. The LMDC grant will preserve affordability of the development to its tenants and perform needed improvements without transferring costs to the tenants.

Location Description:

Knickerbocker Village is located within the LMDC catchment area south of Houston Street on Monroe Street, bound by Catherine, Cherry, and Market Streets.

Activity Progress Narrative:

In the third quarter, the City of New York Department of Housing Preservation and Development (HPD) provided LMDC with requested documentation related to Knickerbocker Village elevator rehabilitation work that was completed at the end of May 2012. In May, LMDC paid HPD \$3,282,095 which included a partial payment for some of the elevator work that was not satisfactorily supported.

Upon receipt and review of the appropriate supporting documentation received from HPD, LMDC is currently processing a \$190,685 reimbursement, which represents the remaining contract balance. This payment is expected to be made before calendar year end thus enabling the closing of this activity in the next quarter..

The New York City Department of Housing Preservation	\$0.00	\$0.00
Match Contributed	\$0.00	\$0.00

Activity Description:

PROJECT DESCRIPTION: LMDC has allocated \$6 million for the rehabilitation of Masaryk Towers, a 1,110-unit Mitchell-Lama development located on Columbia Street on the Lower East Side. This cooperative development primarily consists of low-income tenants. Masaryk Towers was built in the 1960's and many of its systems have outlived their useful life. Replacing these systems would force a significant rent increase. Although Masaryk Towers has raised carrying charges and imposed a capital assessment, an estimated \$6 million in capital work is still needed. LMDC would provide \$6 million to Masaryk Towers as a grant, since shareholders cannot afford additional debt service to address these issues. These funds would have a tremendous impact on preserving the affordability of the development. In addition, this investment would preserve the units for the foreseeable future, as HPD will implement a 15-year agreement that will assure that Masaryk Towers will not opt-out of the Mitchell-Lama program following capital repairs. The City of New York has worked to preserve Masaryk Towers by restructuring their mortgage in order to lower the debt service, and has also made attempts to limit carrying charge increases to 27%, phased in over three years. LMDC funds for this project would allow the City to preserve the existing affordable units in a building that would otherwise continue to deteriorate, and would also assist in the City's efforts to limit the increase in carrying charges to the 27% as previously approved.

PROPOSED BENEFICIARIES: The proposed beneficiaries for this project include low- and moderate-income households. The Masaryk Towers cooperative development primarily consists of low-income tenants, where more than half of the shareholders qualify for Section 8 vouchers. Based upon an analysis performed in 2000, 45% of the unit total are low-income households, and 65% of the unit total are moderate-income households.

SELECTION OF BENEFICIARIES: Masaryk Towers was selected in order to preserve affordability of the development to its tenants, and to perform needed improvements without transferring costs to the tenants. These improvements also caused the City to sign an agreement that Masaryk Towers would remain in the Mitchell-Lama program 15-years after work was completed.

Location Description:

Masaryk Towers is located south of Houston Street, on Columbia Street, bound by Pitt, Stanton and Delancey Streets.

Activity Progress Narrative:

This project is completed but no funds have been reimbursed to the New York City Department of Housing Preservation and Development (HPD) at this time. However, HPD is close to having provided LMDC with all requested documentation related to a reimbursement request for \$1,049,495 for work already completed. The remaining documentation needed to process this request as well as all additional payment requests and related supporting documentation for those reimbursement requests are expected in the next few months.

Activity Description:

LIVING MEMORIAL--The Living Memorial project is an Internet-based information tool that seeks to centrally archive, and make accessible, information related to those lost on September 11, 2001 and February 26, 1993. September's Mission Foundation is working in partnership with Pace University, the New York State Museum, New York State Archives, and the NY Historical Society on the Living Memorial Project. September's Mission is a not-for-profit organization to support the development of a memorial at the World Trade Center site. Through this project, family members, friends and children can provide material about their loved ones including photos, videos, letters, newspaper clippings chronicling the victim's life, letters, artwork, poetry, etc. In addition, the public will be invited to provide material regarding the events of September 11, 2001 and the 1993 bombing. Over time, this collection of information will serve as a living memorial and a lasting repository documenting for all time the lives lost on these tragic days. To ensure privacy, the Living Memorial project will allow family members to restrict access to their loved one's library. The Living Memorial project is a response to requests from several family groups for a means to tell the complete stories of their loved ones and of the events of September 11, 2001 to create connections among families, children and the public to promote learning and healing until a permanent memorial is built. As it is Internet-based, it will serve family members, survivors, and others who may not be physically able to visit the World Trade Center site. It will ensure the preservation of the memory of those lost and the historic circumstances surrounding the events. On September 8th, 2004, Living Memorial began its internet based operations, and received overwhelming public support through electronic correspondence. Funding for this project will include, but is not limited to, professional and technical services required to oversee and execute this project, public outreach and participation events, business requirements analysis, technical architecture design, story boards that illustrate how the site will work, and initial interface design and build-out, testing, refining, and implementation of the interactive website for public use. --PROJECT OBJECTIVES--The WTC Site is currently visited by people from all over the world. Visitors and families of victims have expressed a need for opportunities to reflect, remember, and communicate in a structured environment before the completion of the permanent

memorial at the World Trade Center site. This project is a means to involve victims' families and the public in communicating by collecting, preserving, and telling the complete stories of their loved ones and of the events. It will work to create connections among families, children and the public to promote learning and healing until a permanent memorial is built. This project will provide a valuable public service, as it is not only essential to the healing process, but vital to curators, historians, academics and others that will be charged in the future with interpreting the events of these attacks. It also speaks to a greater public need to know more about the lives lost so tragically. Future use of the Living Memorial Project could include incorporation into the Memorial Center as part of the permanent World Trade Center Memorial. It will serve as interim memorials through which family members, survivors, residents, and others affected by the events of September 11, 2001 can share their stories, grieve, and heal, until the permanent memorial is built. It will also provide the public-at-large with a deeper understanding of the impact of the attacks until the permanent memorial is built. --AMENDMENT TO ACTIVITY -- In December 2006 HUD approved an amendment to PAP 8 that changes the recipient of funds from September's Mission to the WTC Memorial Foundation. --BENEFICIARIES--The thousands of victims' families and visitors from around the region, the U.S., and the world will benefit from the Living Memorial project for a period of time before the completion of the permanent memorial. It will give family members, first responders, survivors, residents, and others who were affected by September 11, 2001 a chance to share their stories, and it will provide a deeper understanding of the loss of life and the impact of the attacks for the public at large. --SCHEDULE--Development and implementation will begin in 2004. The funding for the project will extend for a one year period. --FEDERAL AND OTHER RESOURCES--September's Mission will seek, at a minimum, a one-for-one match, in actual dollars, for every dollar LMDC dedicates to this proposal to allow Phase II to launch immediately upon successful completion of Phase I. Matching grants are anticipated to equal \$296,900. In addition, it is anticipated that in-kind donations that can be quantified in value such as technology equipment, services and software, a site administrator, dedicated space for housing, etc. will result in a total match that is closer to three to one, with the in-kind donation portion totaling approximately \$593,800. Therefore, total income projections are \$890,700. --TOTAL ESTIMATED COST--The total estimated cost for the Living Memorial project is nearly \$1.2 million. The total estimated cost for the LMDC portion of the funding is up to \$296,900.

Location Description:

--PROJECT AREA--The Living Memorial is internet based and will provide an opportunity for family members and others around the world to access information about the victims. The internet portals will be near the World Trade Center site and will serve family members, survivors, others affected by the September 11th attacks, and the thousands of visitors to the site.

Activity Progress Narrative:

Living Memorial grant funds are available for the National 911 Memorial and Museum (Memorial) organization. During this period, LMDC continued working with the Memorial staff on processing their \$296,000 reimbursement request.

Activity Description:

LMDC GENERAL ADMINISTRATION --- LMDC engages in broad planning and administration activities relating to the recovery, remembrance, and rebuilding efforts in Lower Manhattan, defined by LMDC as the entire area of Manhattan south of Houston Street.---LMDCs administration activities include extensive public information and coordination activities relating to its LMDC planning work. As part of its coordination activities, LMDC serves as a facilitator of outreach and discussions between affected communities as well as the public at large and government agencies and officials. LMDCs public information work includes: large scale public meetings and hearings; periodic

printed newsletters and reports; an up-to-date, comprehensive, and interactive web site (www.RenewNYC.com); extensive electronic communications; and other public outreach and participation efforts. In addition, LMDC maintains its network of community contacts through its advisory councils.---LMDC's administration activities also include all functions necessary to administer the Community Development Block Grants including financial operations, legal services, monitoring, auditing, investigations, and general administrative and office functions.---HUD has authorized the use of up to 5% of the total grant to LMDC for costs associated with planning and administration activities, including costs for overhead, personnel, and consultants.

Location Description:

General administrative activities are centralized in LMDC's office at: One Liberty Plaza, 27th floor, New York, NY, 10006, and cover activities within Lower Manhattan.

Activity Progress Narrative:

LMDC continues to maintain a small staff and office space to carry out its planning and community development activities, including project oversight, environmental and regulatory compliance monitoring, project coordination, and payment processing. During the third quarter of 2015, LMDC staff monitored the activities of more than 65 subrecipients and consultants, amended six contracts, closed four consultant contracts, and completed work on four subrecipient projects, while distributing approximately \$5.5 million in payments to subrecipients and consultants furthering the redevelopment of lower Manhattan. Administrative costs for the quarter were approximately \$448,000 which falls within our administrative budget; on a cumulative basis administrative costs remain far less than the 5% allowable for administrative expenses.

Activity Description:

LMDC PLANNING - ECONOMIC ANALYSIS --- LMDC engages in broad planning and administration activities relating to the recovery, remembrance, and rebuilding efforts in Lower Manhattan, defined by LMDC as the entire area of Manhattan south of Houston Street. LMDC planning activities include the site planning for the World Trade Center site and the areas immediately surrounding the site. The agency's planning activities also include the other neighborhoods in Lower Manhattan that have been affected by September 11th and its aftermath. Specifically, LMDC planning activities include expansive analyses of Lower Manhattan's transportation, traffic, housing and related amenities, open space, retail development, and economic development capacity, needs, and potential. Based on these analyses, LMDC will develop and propose concept plans for specific areas and projects in Lower Manhattan. LMDC planning activities focus on the administration of the competition and planning for the memorial. As part of the planning process, LMDC engages in economic analysis activities focusing on the economic impact and financial assessment of proposed development projects and programs for Lower Manhattan. HUD has authorized the use of up to 5% of the total grant to LMDC for costs associated with planning and administration activities, including costs for overhead, personnel, and consultants. The end date for this activity encompasses anticipated programmatic and/or financial activity.

Location Description:

The office of the Lower Manhattan Development Corporation is located at One Liberty Plaza, 20th floor, New York, NY 10006.

Activity Progress Narrative:

There has been no spending this quarter related to economic development planning.

Activity Description:

LONG-TERM PLANNING - WEST STREET PLANNING --- Long-term planning provides funding to plan for public investments including a transportation plan that positions Lower Manhattan as the gateway to the region and the world, a plan that transforms public boulevards into grand public promenades, and one that capitalizes on the underutilized resources of Lower Manhattan. The projects funded in long-term planning meet some or all of the following criteria: Consistent with HUD eligibility criteria; Consistent with the Lower Manhattan Development Corporation's Principles and Preliminary Blueprint for the Future of Lower Manhattan; Consistent with the Lower Manhattan Development Corporation's A Vision for Lower Manhattan: Context and Program for the Innovative Design Study; Consistent with Mayor Michael Bloomberg's New York City's Vision for Lower Manhattan; and Enhancement of Lower Manhattan transportation services, connecting Lower Manhattan to the world. --- West Street Planning --- New York State Department of Transportation (NYS DOT) is responsible for post-September 11th repair of Route 9A, also known as West Street in Manhattan, as well as the planning for future enhancements. West Street is a multi-lane, 260-foot wide highway serving both regional and local traffic in Lower Manhattan. The street acts as the western boundary for the World Trade Center site. West Street's traffic conditions and width -- more than twice as wide as a typical Manhattan avenue -- make it a barrier for pedestrians by separating Battery Park City, the World Financial Center, and the Hudson River waterfront from the rest of Lower Manhattan. Significantly, West Street acts as a divide between the World Trade Center site, the emerging residential community south of Liberty Street, and the existing Battery Park City community. Residents complain about the potential safety hazards of crossing West Street and retailers in the World Financial Center suffer from difficult access. Since September 11th, there has been extensive discussion of the best ways in which to accommodate the large traffic volumes that flow along West Street, while also improving the pedestrian experience and making the areas adjacent to West Street more amenable to residential and commercial development. The portion that runs along the length of the World Trade Center site is of special concern since it must provide an appropriately dignified and aesthetically graceful setting next to the future World Trade Center memorial. NYS DOT has considered numerous

design concepts to consider all significant factors. Goals for the design of West Street include creating better east-west pedestrian connections, improving the pedestrian environment, easing surface congestion, and accommodating the need to create a quiet, respectful site for the memorial. NYS DOT's work on West Street included necessary technical services related to the repair and restoration of essential transportation facilities and planning for future enhancements to West Street.. -- ALLOCATIONS IN PARTIAL ACTION PLANS -- Partial Action Plan 4 has allocated \$2,705,848 for this project. (Additional funds had originally been allocated to West Street Planning. in 2005, \$1.8 million was reallocated to Short-Term Capital Projects for West Street Pedestrian Connections).

Location Description:

West Street, south of Chambers Street, in Manhattan.

Activity Progress Narrative:

Activity is attributed to legal, environmental and other consultant work associated with the planning and environmental reviews done for the West Thames Street Bridge and West Street sidewalk projects. Approximately \$2,000 was spent this past quarter on legal and environmental matters related to the West Thames Street Bridge planning and design work.

The City of New York	\$29,738.77	\$32,970,173.34
Match Contributed	\$0.00	\$0.00

Activity Description:

The initial Final Action Plan allocated \$60,950,849 for the Lower Manhattan Community Enhancement Fund and the Lower Manhattan Cultural Enhancement Fund as well as the Drawing Center (collectively, Community and Cultural Enhancement Program). As certain specific projects have been identified, funds have specifically allocated to those projects reducing this allocation to \$50,871,765. The Community and Cultural Enhancement Program will address a range of community and cultural needs by providing grants, through a competitive selection process, to not-for-profit and government organizations for projects and programs that demonstrate the ability to spur long-term Lower Manhattan revitalization, benefiting area residents, workers, businesses, and visitors. --Community Enhancement Funds were allocated by LMDC to not-for-profit organizations whose projects support community facilities or programs that (a) provide education, employment, and health care services, and/or (b) recreational or community gathering needs. Also eligible are capital projects to acquire, enhance access to, improve, or rehabilitate existing community facilities. LMDC issued an RFP and proposals were due on November 10, 2006. LMDC reviewed applications and convened an advisory panel to help select appropriate programs. This portion of Cultural Enhancement Funds prioritize projects that received planning grants in the first round of cultural funding (see CEF reports) as well as new proposals that have the potential to contribute to the development of clusters or corridors of cultural activity in revitalization zones, including the World Trade Center area, Fulton and Greenwich Streets and the waterfronts. On November 8, 2007 thirty-five grants were approved, totaling \$37,387,000. LMDC has executed 35 Subrecipient agreements. Community and Cultural Enhancement Program funds were allocated by LMDC to not-for-profit and government organizations who support cultural or community programs or projects that benefit the residents, workers, and communities of Lower Manhattan. LMDC issued an RFP and proposals were due on November 5, 2010. On September 7th, 2011 thirty-eight grants were approved totaling \$17 million. PROGRAM OBJECTIVES-- Providing amenities and services necessary to support the residential and business community have emerged as important Lower Manhattan redevelopment objectives. These amenities are expected to serve as a catalyst for increased residential, commercial, retail, and other neighborhood activities. In realizing this objective,

the Community and Cultural Enhancement Funds are intended for projects in Lower Manhattan that would meet the needs resulting from the events of September 11, 2001, address or prevent blight, and benefit low-and-moderate-income communities. Funded projects would have the capacity to spur the revitalization of Lower Manhattan and successfully benefit area businesses, residents, and/or visitors. BENEFICIARIES--The Lower Manhattan Community and Cultural Enhancement Funds would benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations. The Fund is intended to benefit low-and moderate-income people, address or prevent blight, and meet needs resulting from September 11, 2001.

Location Description:

The project area is Lower Manhattan, south of Houston Street.

Activity Progress Narrative:

This activity includes funds available for the Community and Cultural Enhancement Program (CCEP) grants that have not been executed as well as the five Community Enhancement Fund (CoEF) program grants that still remain open.

As for the remaining CoEF grants, Alliance for Downtown New York has expended \$1,372,394 of the awarded \$1,500,000. During this past quarter, no requests for reimbursement were received. The remaining \$127,606 is expected to be used for the de-installation of the final temporary art installation project. Due to private, adjacent construction, the de-installation has been delayed. It is still expected that the project will be completed in 2015 but we do not expect the final reimbursement requests to be submitted until the first quarter of 2016.

New York City Health and Hospitals Corporation (NYCHHC) completed their \$257 million modernization project which included constructing and outfitting approximately 30,000 square feet of third floor space that provides 50 fully equipped treatment rooms for the purpose of providing healthcare services for women and children. NYCHHC has submitted a reimbursement request for over \$800,000 which is under review.

Planning for the next phase of the Corlears Hook Park project has begun; the City of New York Parks Department is ready to move forward with the amended project scope. The initial phase involving the construction of a ball field was completed without the use of LMDC funds. This project phase will focus on the adjacent comfort station. While Grand Street Settlement representatives have indicated their desire to extend their agreement and move forward with their project, they are still working with the City and others on securing a long term lease and additional financial support. Meetings regarding the lease were held in July and negotiations continue. Final costs associated with the Battery Park Carousel were reimbursed during the second quarter. LMDC Staff continues working with each these grant recipients to further their projects and process outstanding payment requisitions. We are also working with the proposed CCEP grant recipients to move their projects forward, as well.

Match Contributed	\$0.00	\$0.00

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, ABC No Rio will engage the services of contractors to construct a new 7,600 sq. ft. 4-story building, located at 156 Rivington Street. Construction includes; doubling capacity for public events programming through the extension of the first floor and cellar spaces; creating spaces specifically designed for workshops and programming; providing more efficient insulation and soundproofing; installing an elevator and making the building wheelchair accessible; installing new energy- and water-efficient building-wide systems; and increasing capacity for alternative energy use.

Location Description:

156 Rivington St, New York, NY 10002

Activity Progress Narrative:

The project is delayed and as reported in the past, project responsibilities have been transferred to the New York City Economic Development Corporation (EDC) from the Department of Design Construction. With this transition, budget and planning changes have taken place. ABC No Rio reported that the project had received an additional \$1.5 million in capital funding in 2015/16 City budget and that the City's Office of Management and Budget issued the Certificate to Proceed for the project under EDC.

ABC No Rio began working with EDC on preparing to put the project out to bid. A project schedule is expected to be completed by the end of 2015, at which point LMDC and ABC No Rio will discuss the impact on our authorized funding. This project will remain on hold until scheduling and funding issues are resolved.

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, New York Asian's Women Center will provide all the necessary services in connection with outreach, counseling and advocacy of domestic violence victims in Lower Manhattan at the Manhattan Family Justice Center. Located at 80 Centre Street and is scheduled to be opened in Fall 2013.

Location Description:

32 Broadway, 10thFlr, New York, NY 10004

Activity Progress Narrative:

In July, New York Asian Women's Center ("NYAWC") took part in a celebration of the 25th Anniversary of the Americans with Disabilities Act in Chinatown as well as participating in the 1st Annual Disability Pride Parade Festival. NYAWC contributed time and personnel to this inaugural event in support of disabled survivors of domestic violence. In August, in an effort to further advertise their services, particularly to faith-based communities NYAWC attended a national conference: A Call to Action! Combatting Human Trafficking and Domestic Violence which was hosted by the NYC Faith-Based Coalition against Human Trafficking and Domestic Violence. During the month of September, in preparation for October's "Domestic Violence Awareness" month, NYAWC staff reached out to various businesses in the Chinatown area to discuss the issue of domestic violence and ask them to participate in NYAWC's campaign to engage the community in taking a stand against domestic violence.

During third quarter of 2015, two NYAWC requests for reimbursement that were being worked on in the prior quarter, totaling \$35,090, were processed and paid. In August, NYAWC submitted another request for reimbursement which was reviewed and processed resulting in a late September payment of \$28,231. The Time of Performance for this grant concluded on September 30, 2015. LMDC awaits NYAWC's final requests for reimbursement.

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, Clemente Soto Velez will engage the services of consultants to design and plan the interior renovation project, at 107 Suffolk Street. The renovation will ensure the ADA compliance of the basement and first floor of the Center, provide access to and safe egress from all areas on the first floor and basement, and upgrade such elements as plumbing, lighting, signage, security, and internal building communications.

Location Description:

107 Suffolk St, New York, NY 10002

Activity Progress Narrative:

During this quarter, the Design Development Phase was completed. In addition, the New York City Development Hub Commissioner provided some recommendations to the Design Team, Sage & Coombe, on the proposed construction-phasing plan. The HUB Commissioner had no objections to the proposed construction schedule. Clemente received a reimbursement request of over \$75,000 this quarter. The project is on schedule at this time.

Friends of The New York City Fire Department	\$9,247.50	\$17,804.59
Match Contributed	\$0.00	\$0.00

Activity Description:

As part of its Community and Cultural Enhancement Program, LMDC will support the continuation of the Friends of the New York City Fire Department Collection’s cataloguing and artifact conservation project. Specifically, funds will be used for the purchase of new archival equipment including a computer, museum database software, and archival storage materials. LMDC will also reimburse costs associated with consultants engaged for historical restoration, preservation and data entry as well as the staff costs of the Collection Manager to oversee the program. The Program will allow the Museum to better serve its diverse visitor base. Beneficiaries of the Program include, but are not limited to, teachers and students from local schools as well as those located further afield, area residents, domestic and international tourists, and members of the FDNY and their families. Founded in 1981, Friends of the New York City Fire Department Collection, Inc. instituted and operates the New York City Fire Museum where it preserves and presents the history and heritage of fire fighting in New York City while educating the public in fire safety and prevention.

Location Description:

278 Spring Street, New York City, NY 10013

Activity Progress Narrative:

The Time of Performance for the LMDC grant to the NYC Fire Museum came to an end on December 31, 2014. During the 3rdQuarter of 2015, three previously submitted requests for reimbursement were approved and paid for a combined total of \$43,067. Additionally, an eighth and final request for reimbursement was submitted

on August 10th in the amount of \$628. This was reviewed, approved and paid on October 1st, 2015. Over the course of this program, the NYC Fire Museum successfully scanned and catalogued in excess of their originally targeted amount of items and materials contained within the NYC Fire Museum's collection are now more clearly identified and their significance better understood as a result of this project. The terms of this agreement have been successfully achieved and this grant is now being moved to inactive status.

H.T. Dance	\$109,904.00	\$109,904.00
Match Contributed	\$0.00	\$0.00

Activity Description:

As part of LMDC's Community and Cultural Enhancement Program, LMDC's Grant will enable H.T. Dance/Chen Dance Center to renovate their second floor offices and restore the public lobby and grand staircase, ground to second floor, of its flagship location at 70 Mulberry Street, New York City to its original, historic beauty. Specifically, LMDC will fund costs associated with labor, equipment, fixtures and related supplies pertaining to the Program. Founded in 1978, H.T. Dance is a non-profit performing arts organization based in Chinatown dedicated to providing moving experiences in Asian American expression and contemporary dance through artistic creation, arts education, and presentation. H.T. Dance's Chen Dance Center is among the very few small dance theaters and rehearsal facilities in Chinatown providing program opportunities and performances to the local community. Other tenants at 70 Mulberry Street include: a Chinatown Senior Citizens center; Museum of Chinese in the Americas; the United East Athletic Association and the Chinatown Manpower Project (an organization providing vocational training for adults and Chinese language programs for community youth). Beneficiaries of the Program include H.T. Dance audiences, visitors, artists, students, and guests as well as the other 70 Mulberry Street tenants and their constituents, a majority of whom are low and moderate income families, who will enjoy a safer and more comfortable environment as a result of this project.

Location Description:

70 Mulberry Street, New York, NY 10013

Activity Progress Narrative:

The Time of Performance for H.T. Dance/Chen Dance Center's CCEP grant concluded at the end of September, 2014. During the third quarter of 2015, a previously submitted request for reimbursement from H.T. Dance was processed and paid. The amount approved and reimbursed on September 28, 2015 was \$109,904.

Over the course of LMDC's CCEP grant to H.T. Dance, the organization was able to renovate their office and the lobby and grand staircase, up to the 2nd floor, of the building they occupy at 70 Mulberry Street. The office renovation allowed H.T. Dance to operate in a more efficient and effective manner and the building entrance is now more safe and aesthetically appealing to H.T. Dance staff, students, guests, building tenants and all of the building's other visitors. The improvements H.T. Dance was able to make to the building lobby and grand staircase as a result of LMDC's CCEP grant are a commendable sign of the organization's health and stability and the strength of its commitment to this Lower Manhattan community. The terms of this agreement have been successfully achieved and this grant is now being moved to inactive status.

Activity Description:

: As part of LMDC’s Community and Cultural Enhancement Program, LMDC funds will enable New York Public Radio (NYPR) to make improvements to The Jerome L. Greene Performance Space (“The Greene Space”), NYPR’s 5,300 square foot public performance and studio space in their Lower Manhattan headquarters at 160 Varick Street. Specifically, LMDC will support modifications and enhancements to the Control Room and the purchase of equipment related to Control Room enhancement. Beneficiaries of the Program will include the more than 20,000 people who come to The Greene Space facility each year to experience live broadcasts of signature WNYC shows, WQXR live concerts, and lectures, many of whom come to Lower Manhattan to visit The Greene Space. The Greene Space Programming also reaches hundreds of thousands of people via live broadcasts, audio and visual streaming and recorded programming. New York Public Radio is an independent non-profit organization comprised of 7 radio stations, including WNYC (93.9 FM, AM 820), WQXR (105.9 FM), and The Jerome L. Greene Performance Space. Their radio stations are the most listened-to public stations in the country, reaching 2 million listeners locally each week, and an additional national radio and digital audience of 8.5 million. The mission of NYPR is “to make the mind more curious, the heart more tolerant, and the spirit more joyful by producing programs that reflect the values, vitality, diversity, and aspirations of listeners wherever they may be.” The amount of this LMDC grant is \$200,000.

Location Description:

160 Varick Street, 9thFloor, New York, NY 10013

Activity Progress Narrative:

New York Public Radio (NYPR) submitted one request for reimbursement related to this project, in the amount of \$178,705, which is currently under review. LMDC staff continues to work with NYPR staff to resolve all open items and inquiries related to the request including a budget modification. The Time of Performance for this project expired on December 31, 2014.

The upgrades to NYPR's Jerome L. Greene Performance Space facilitated by LMDC's funding have allowed NYPR to better meet the broadcasting and production challenges brought about by fluctuations in listening practices and innovation in technology as well as to expand the venue production capability and provide the Lower Manhattan community an improved audience experience.

Activity Description:

: As part of LMDC’s Community and Cultural Enhancement Program, LMDC funds will enable the Lower Manhattan Cultural Council (LMCC) to implement a Marketing for the Arts program (“MFA”). The LMCC MFA is a marketing and communications training program, which will benefit seven specific, pre-selected lower Manhattan cultural institutions. Goals of the program include: increasing the capacity of the seven downtown cultural organizations to develop and implement strategic marketing and communications plans; to encourage and enable collaboration among the organizations to build community; and to engage in peer-to-peer learning opportunities as the basis for an ongoing network of mutual support. The seven preselected and approved organizations which were all found to be in need of marketing and communication enrichment are: Chen Dance Center/H.T. Dance; CityLore on behalf of the CATCH consortium (Center for Art, Tradition, and Cultural Heritage); Clemente Soto Velez Center; HERE Arts Center; Museum of American Finance; Museum of Chinese in the Americas; and Poets House. Specifically, LMDC will fund costs associated with LMCC staff, marketing and communication consultants, and guest speakers related to the design and implementation of the program. In addition, LMDC will provide the funds for LMCC to re-grant up to \$25,000 to each of the seven cultural institutions which have been selected to be a part of this program for the implementation of their marketing plan. Beneficiaries of the Program will be Lower Manhattan residents and workers who work on, visit or attend exhibitions or events that the selected cultural institutions execute, as well as, artists and area businesses which will benefit from the expanded and enhanced activity in Lower Manhattan generated by these institutions through the successful implementation of their newly engineered marketing campaigns. The amount of this LMDC grant is \$500,000.

Location Description:

Activity Progress Narrative:

The time of performance for Lower Manhattan Development Corporation's CCEP grant to Lower Manhattan Cultural Council ("LMCC") for implementation of their Marketing for the Arts ("MFA") program came to an end on March 31, 2015. A previously submitted request for reimbursement, in the amount of \$168,035, is under review. In August, LMCC submitted the initial MFA program request for reimbursement related to the re-granting phase of the program. LMDC is working with LMCC on requested budget adjustments which we expect to work out in the near future thus allowing the completion of our reimbursement request review. We are also awaiting submission of final reimbursements requests.

Activity Description:

As part of Grantee’s Community and Cultural Enhancement Program, Grantee will support Subrecipient’s College Access and Success Program (CAASP) which prepares parents of children who are enrolled in Subrecipient’s Head Start program for college by providing ESL, GED and college prep classes.

Location Description:

197 East Broadway, New York, NY 10002

Activity Progress Narrative:

The Educational Alliance ended the English Speakers of Other Languages (ESOL) Summer Semester in August. The Fall Semester started September 28th. The Educational Alliance has recruited new ESOL and High School Equivalency (HSE) students for the fall semester. During the third quarter, the employment specialists were in constant communication with parents and families by offering them employment workshops, job clubs and meet and greets. In September they hosted workshops, Online Job Search and Research – Live and Successful Interviewing & Open Questions and Answers. Education Alliance continues to focus on recruiting parents to participate in workshops and job clubs. A College Access and Success Gala were held in August and 94 families were in attendance. The event’s hosts and performers were parents enrolled in the program. The event served to celebrate the accomplishments of parents and families and to encourage persistence in the program. A total of six new parents started college this fall. Eight parents have demonstrated an interest in attending college and will meet with their College Advisors to complete college and financial aid applications for Spring 2016

Semester.

To date LMDC has reimbursed a total of \$200,000.00 to The Educational Alliance related to this project.

Activity Description:

Subrecipient will rehabilitate an existing commercial building, at 20 Thomas Street to create a performing arts center with theaters, administrative offices and other related spaces. LMDC funding will also support expenses related to architectural consulting and project management.

Location Description:

41 White Street, New York, NY

Activity Progress Narrative:

The Flea Theater is working towards the rehabilitation of an existing commercial building, at 20 Thomas Street to create a performing arts center with theaters, administrative offices and other related spaces. This will enable The Flea to enhance its ability to provide more opportunities for artists, increase audience attendance, and to maintain and develop new and long-term partnerships with other theater groups. A reimbursement request totaling \$15,721.17 was processed and is expected to be paid in the next few weeks. This payment will fulfill the contract amount of \$500,000 and The Flea Theatre has submitted a final report narrative highlighting the successful use of grant funds. We expect this activity to be closed next quarter.

Activity Description:

--LOWER MANHATTAN CULTURAL ENHANCEMENT FUND CAPITAL PROJECTS-- The Cultural Enhancement Fund provides grants to not-for-profit organizations for projects and programs that provide cultural facilities or programming in Lower Manhattan, and demonstrate the ability to spur long-term Lower Manhattan revitalization, benefiting area residents, workers, businesses, and visitors. Grants are provided to not-for-profit organizations that, through proposed or existing facilities and activities, demonstrate excellence, animate the neighborhood, and support cultural life in Lower Manhattan. Organizations were selected through a competitive process and submitted applications that were reviewed by an Advisory Panel including representatives from New York City and State agencies and other advisors knowledgeable on culture and Lower Manhattan, that will made funding recommendations to LMDC. In March 2006 LMDC announced the selection of 63 cultural organizations to receive grants for capital projects, events and programs, and planning initiatives. 32 Grants were for Capital Projects-- PROGRAM OBJECTIVES--Supporting cultural life has emerged as an important Lower Manhattan redevelopment objective following an extensive public outreach and planning process. Investment in Lower Manhattans cultural assets would serve as a catalyst for increased residential, commercial, retail, and other neighborhood activities. In realizing this objective, the Cultural Enhancement Fund is intended for projects in Lower Manhattan that would meet the needs resulting from the events of September 11, 2001, address or prevent blight, and benefit low-and-moderate-income communities. Funded projects would have the capacity to spur the revitalization of Lower Manhattan and successfully benefit area businesses, residents, and visitors. --BENEFICIARIES--The Lower Manhattan Cultural Enhancement Fund benefits Lower Manhattan area residents, workers, businesses, and not-for-profit organizations through supporting the areas cultural life. The Cultural Enhancement Fund is intended to benefit low-and-moderate-income communities, address or prevent blight, and meet needs resulting from September 11, 2001. --SCHEDULE--Activities related to the Cultural Enhancement Fund began in the fall of 2005. -- ALLOCATIONS IN PAP--\$19,023,495 has been allocated for the Cultural Enhancement Fund Capital Projects in PAP 11.

Location Description:

PROJECT AREA--The project area for the Cultural Enhancement Fund is defined as Manhattan, south of Houston Street.

Activity Progress Narrative:

Only one Cultural Enhancement Fund Grant remains open at quarter end. The Downtown Community Television Center (DCTV) project was delayed due to the sale of DCTV's air rights, which was coordinated through a partnership between DCTV and NYC Economic Development Corporation. The sale was completed in early 2015, and the project now includes the revised plan to incorporate access to Lafayette Street. DCTV is working towards completion of the architectural redesign and the systems integration of digital cinema equipment that will be used in a multi-use screening room.

DCTV submitted four reimbursement requests in June which were processed and paid by the end of September. Two additional reimbursement requests were submitted which were processed and expected to be paid in October. Final reimbursement requests are expected in the upcoming quarter as the period of performance ends on October 31, 2015.

Activity Description:

PROJECT DESCRIPTION: The Fulton Nassau Crossroads Program, a component of the Fulton Corridor Revitalization Program, is an incentive program to assist property owners and retailers to restore building facades, and improve commercial storefronts and interior space; in order to improve the overall look and retail viability of Fulton Street, while respecting its historic character. Design Guidelines and an Incentives Review Panel ensure that the incentive program meets the overall vision for the corridor. The LMDC worked with the City of New York to develop the program guidelines, and they are available online at www.nycedc.com/crossroads. The project also provides technical assistance to property and business owners who are receiving money for façade and storefront improvements. In June and December 2009, the LMDC Board authorized an amendment to Partial Action Plan 12 and the two Fulton Corridor Revitalization subrecipient agreements that reduced the authorized amount of the Incentive and Streetscape subrecipient agreement to \$21,894,050. Out of that amount, \$14,570,000 is allocated to the storefront and façade improvement program. The amendment to Partial Action Plan 12 reflecting that reduction is posted on the LMDC website. On November 22, 2010, the LMDC Board authorized an additional reduction in the amount allocated to the Fulton Corridor Revitalization Program in PAP12. The November 2010 authorization and a partial action plan amendment approved by HUD in June 2012, reduced the amount of the incentive program from \$14,570,000 to \$10,570,000.

PROPOSED BENEFICIARIES: The Fulton Corridor Revitalization Program will provide needed public investment in the Fulton Corridor, benefiting the growing residential population, businesses and retailers, and area office workers and visitors to the WTC Site and the South Street Seaport. There are approximately 150 storefronts in 80 buildings within the eligible Program area.

SELECTION OF BENEFICIARIES: The Fulton Corridor is a major artery in Lower Manhattan, connecting the rebuilt World Trade Center site and Battery Park City to the Seaport and the soon to be developed East River Esplanade. The grant program will allow for steady improvement of the facades and storefronts in order for the surrounding buildings to match the improved streetscape and open spaces.

Location Description:

To be eligible for the Fulton Nassau Crossroads program, a property must be located on Fulton Street between Broadway to the west and Water Street to the east, or on Nassau Street between Spruce Street to the north and Maiden Lane to the south.

Activity Progress Narrative:

Work on the renovation of the final four storefronts under the Fulton Corridor Incentive Program is ongoing. Reimbursement requests totaling approximately \$675,000 were paid this quarter, other requests totaling approximately \$140,000 are under review, and an additional \$257,000 reimbursement request was received from the subrecipient this quarter.

Activity Description:

PROJECT DESCRIPTION: In June and December 2009, the LMDC Board authorized amendments to Partial Action Plan 12 and the two Fulton Corridor Revitalization subrecipient agreements that increased the authorized amount for the Open Spaces subrecipient agreement by \$4,970,950 from \$11,495,000 to \$16,465,950. The amendment to Partial Action Plan 12, which added \$1M to the Fulton Corridor Revitalization Program bringing the total allocation for the Program to \$39M, was approved by HUD on September 24, 2010. This project will develop and improve parks and open spaces along the Fulton Corridor and is a component of the Fulton Corridor Revitalization Program. Titanic Memorial Park will be refurbished to become an improved gateway to the South Street Seaport, through improved seating and landscaping. Pearl Street Playground will be renovated and expanded to pedestrianize Little Pearl Street and to become a more welcoming area for children and families. DeLury Square will be a new 10,900 sq/ft park at Fulton and Gold Streets. The City acquired a parcel of land to create the new park configuration of DeLury Square, which will include a lawn, planted areas, a pond and fountain, sitting areas, fencing, and other improvements. A new children's playground designed by the Rockwell Group is being constructed at Burling Slip and will create 22,000 square feet of public open space.

PROPOSED BENEFICIARIES: The Fulton Corridor Revitalization Program will provide needed public investment in the Fulton Corridor, benefiting the growing residential population, businesses and retailers, and area office workers and visitors to the WTC Site and the South Street Seaport. Based on numbers provided by DPR in October 2010, the expected numbers of persons benefiting from the open spaces per year are: Burling Slip 140,000 total, 21,000 low-income, and 84,000 moderate-income, Pearl Street Playground 30,000 total, 4,500 low-income, 22,500 moderate-income, Titanic Park 18,000 total, 1,800 low-income, and 10,800 moderate-income, and DeLury Square 22,000 total, 8,800 low-income, and 8,800 moderate-income. Actual numbers of users of the open spaces are expected to be calculated during the summer months once the open spaces have been opened to the public.

SELECTION OF BENEFICIARIES: The Fulton Corridor is a major artery in Lower Manhattan, connecting the rebuilt World Trade Center site and Battery Park City to the Seaport and the soon to be developed East River

Esplanade. The Open Space Program will improve two existing opens spaces and create two new open spaces for the area.

Location Description:

The following projects will enhance the parks and open spaces along the Fulton Corridor: Titanic Memorial Park at the corner of Fulton and Water Streets, Pearl Street Playground bound by Fulton, Pearl and Water, and new playground to be created at Burling Slip and a new park to be created at DeLury Square at the corner of Fulton and Gold Street.

Activity Progress Narrative:

All construction work on DeLury Square, Pearl Street Playground, Burling Slip, and Titanic Park has been completed. Environmental mitigation work related to Burling Slip is pending. During the quarter we processed and paid over \$55,000 for work associated with Titanic Park.

A reimbursement request totaling approximately \$91,000 is on hold due to reporting issues. We are still working with the City of New York Department of Parks and Recreation to resolve these issues. No additional reimbursement requests were received this quarter.

Activity Description:

PROJECT DESCRIPTION: On June 11, 2009, the LMDC Board authorized a reduction in the amount of the Subrecipient Agreement, which reduced the amount for the Fulton Corridor streetscape and streetwall improvement project in the Subrecipient Agreement from \$7,788,000 to \$7,102,050. The amendment to Partial Action Plan 12 reflecting that reduction is posted on the LMDC website. This program will enhance the pedestrian and vehicular movement in the portals leading to Fulton Street, including John Street from William Street to South Street to enhance the connection to Burling Slip. On January 26, 2012, the LMDC Board authorized a Partial Action Plan 12 and Subrecipient Agreement amendment to include an additional three blocks of Spruce Street between Park Row and Gold Street in the streetscape project. Partial Action Plan 12 was amended to include the additional blocks and posted on LMDC's website on March 12, 2012. The streetscape and streetwall improvements are part of the Fulton Corridor Revitalization Program. Potential improvements include new sidewalks and curbs, roadway resurfacing, street furniture, light poles, wayfinding signage, landscaping, seating, plantings and increased open space along Fulton Street between Gold and Pearl Streets.

PROPOSED BENEFICIARIES: The Fulton Corridor Revitalization Program will provide needed public investment in the Fulton Corridor, benefiting the growing residential population, businesses and retailers, and area office workers and visitors to the WTC Site and the South Street Seaport. The number of persons benefiting annually is based on a 2006 economic analysis report produced by The Louis Berger Group, which determined that there were approximately 49,111 residents who live within 0.5 miles of the project area and 52,141 workers who work within 0.25 miles of the project area.

SELECTION OF BENEFICIARIES: The Fulton Corridor is a major artery in Lower Manhattan, connecting the rebuilt World Trade Center site and Battery Park City to the Seaport and the soon to be developed East River Esplanade. The streetscape program will allow for steady improvement of streetscape to match the improved facades and open spaces.

Location Description:

The Program area for these improvements includes Nassau Street between Fulton Street and Maiden Lane, William Street between Maiden Lane and Beekman Street, Gold Street between Platt and Beekman Streets, Cliff Street between John and Fulton Streets, Pearl Street between Maiden Lane and Fulton Street, and Spruce Street between Park Row and Gold Street.

Activity Progress Narrative:

All work has been completed on the streetscape portion of the project. All reimbursement requests have been submitted by the subrecipient and paid by LMDC.

Activity Description:

LOWER MANHATTAN ECONOMIC DEVELOPMENT PROGRAM -- For Lower Manhattan to continue to recover from the attacks of September 11, new opportunities to increase economic activity must be developed. Creating new residential neighborhoods, attracting new commercial and retail tenants to Lower Manhattan, and spurring construction that will generate new jobs are important goals that are consistent with LMDCs Principles and Revised Preliminary Blueprint for the Future of Lower Manhattan. LMDC has allocated \$30 million for economic development initiatives in Lower Manhattan. The New York City Economic Development Corporation (EDC) will use these funds to implement projects that (1) increase economic activity in Lower Manhattan by spurring and promoting additional commercial and residential development; (2) attracting businesses and residents to locate in Lower Manhattan; and/or (3) providing short-term and/or long-term jobs in Lower Manhattan. Prior to allocating funding to any project, EDC will engage public participation in the review of the project's ability to promote one or more of the above three goals and solicit and consider public input.

ECONOMIC DEVELOPMENT PROGRAM OBJECTIVES This program will spur activity that will help prevent blight that could result absent intervention to address the existing conditions resulting from the events of September 11. This program will also benefit low-and-moderate-income people.

BENEFICIARIES-- The economic development projects will benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations, including low and moderate income persons and families. More specific beneficiaries will be identified as projects are selected.

SCHEDULE The economic development projects are expected to be identified by December 31, 2007 and completed by December 31, 2015.

CURRENT PROJECTS UNDER THE PROGRAM -- The Small Firm Assistance Program is one of the projects funded under the Economic Development Program. The Small Firm Assistance Program will provide grants to eligible small firms in Lower Manhattan adversely affected by street closures related to publicly-funded construction. The Program was recently amended to expand eligibility under the Program, increase the Programs funding and extend its expiration date through December 31, 2015.

FEDERAL AND OTHER RESOURCES-- LMDC proposes to allocate up to \$6,775,000 for a Lower Manhattan Economic Development Program.

TOTAL ESTIMATED COST--The total estimated cost for this activity as outlined in this Partial Action Plan is up to \$6,775,000.

Location Description:

PROJECT AREA— The project area for the economic development program is Lower Manhattan, south of Houston Street.

Activity Progress Narrative:

LMDC processed and approved three Small Firm Assistance Program applications in the third quarter of 2015 totaling \$19,450 in grant payments. Five additional applications are currently awaiting additional documentation. To date LMDC has received 442 applications for assistance and approved and paid 363 totaling \$5.1 million in grant payments.

Activity Description:

LOWER MANHATTAN TRANSPORTATION IMPROVEMENT PROGRAM-- Access to transportation has been identified as a competitive advantage for Lower Manhattan. Access to subways, the PATH station, ferries, bridges and tunnels make Lower Manhattan an attractive place to live and work. As Lower Manhattan continues to grow, ensuring sufficient transportation will be a key to its continue success. LMDC allocated up to \$31,000,000 to address a range of transportation initiatives that will benefit commuters, businesses, residents and pedestrians in Lower Manhattan. The City of New York and The National 9/11 Memorial Museum will use these funds to implement projects within Lower Manhattan that accomplish one or more of the following: improve mobility; improve connectivity between Lower Manhattan, the rest of New York City, and the surrounding region; promote the livability of Lower Manhattan and/or encourage business development; improve conditions for pedestrians and bicyclists; promote use of public transportation; provide access to the streets for those vehicles that need it; reduce congestion on the streets; support traffic management and emergency response; and ease the impact of construction on residents, businesses and tourists. Prior to allocating funding to any project, theNational 9/11 Memorial Museum andtheNYC Economic Development Corporation will engage public participation in the review of the project's ability to promote one or more of the above goals and solicit and consider public input. -PROGRAM OBJECTIVES This program will help prevent of blight that could result absent intervention to address the existing conditions resulting from the events of September 11th. -BENEFICIARIES-- The transportation improvement projects to be funded will benefit Lower Manhattan area residents, workers, businesses, and not-for-profit organizations, including low and moderate income persons and families. --ALLOCATIONS IN PARTIAL ACTION PLANS A total of \$31 million have been allocated in the Final Action Plan. The initial Final Action Plan allocated \$31,000,000 to Transportation Improvements. TheFinal Action Plan was amended in June 2012 to reduce the allocation for Transportation Improvements by \$14 Million to a total of \$17 Million.AFebruary 2013 amendment reduced the allocation to \$15,835,000. The February 2013 amendment also allowed the National September 11 Memorial & Museum at the World Trade Center Foundation, Inc. to allocate and implement Transportation Improvements.

Location Description:

The project area is Lower Manhattan, south of Houston Street.

Activity Progress Narrative:

The New York City Department of Transportation (DOT) DOT submitted a set of 10 site plans to their subcontractor for sign installation. In addition, they've submitted a reimbursement request for over \$353,000 that is in the process of being reviewed and processed for payment.

New York City Economic Development Corporation (NYCEDC) continued with their design planning work this quarter on the Water Street Corridor streetscape enhancement. Milestones include completion of a traffic report,

consensus from New York City Department of Parks and Recreation and DOT on tree pit design, and a Project Team consensus on preliminary design for the Public Design Commission. This project appears to be on schedule.
